## **TOWN OF SWAMPSCOTT**

**For the year ending December 31, 1976**

Cover photo, taken in 1921, shows the home of the noted scientist and inventor, Professor Elihu Thomson. This building, built in 1889, now know as the Elihu Thomson Administration Building, was recently declared a National Historic Landmark under the theme of Science and Invention. Professor Thomson's observatory is shown on the front lawn.

Above photo shows the award plaque held by George B. Thomson (right) who is the grandson of the noted scientist and inventor, Elihu Thomson, and former State Representative and former Chairman of the Swampscott Board of Selectmen. Donald J. Warnock (left) is Chairman of Swampscott Historical Committee.

# BOARD OF SELECTMEN

ROBERT E. DONELAN, Chairman  
MICHAEL J. MARTIN                      ARTHUR J. PALLESCHI

Your Board of Selectmen are pleased to submit to their fellow citizens an annual report for the year ending 1976. During the past year, many hours have been spent by the Board with the assistance of our bargaining agent, Thomas Driscoll, meeting and negotiating with the various Unions within our Town. We are pleased to report that all of these negotiations came to a close with the signing of acceptable contracts to both the Union and the Town of Swampscott. However, in two cases we had a petition filed for referendum, and when these contracts went to referendum, they were defeated. Subsequently, the Unions were obliged to resort to fact finding and then to arbitration to get a final decision relative to arbitration. The arbitrator in both cases awarded them the same contracts which were approved by the selectmen and also approved at the town meeting, and subsequently we were obliged to fund these contracts. As you all know, we called this special town meeting in the early part of December in order to get approval from the town meeting to fund these contracts and also to take care of other matters that had been submitted on this warrant.

We are now working on the contracts for 1977, and we will always keep in mind the effect that any decisions made by this Board of Selectmen will have on the tax rate. During this past year, a Growth Policy Committee was formed and its members were appointed by the Board of Selectmen. They were charged with the responsibility of determining the future growth, if any, in the Town of Swampscott and then were to report back to the town meeting. Although the Town of Swampscott is only

3.5 square miles, it is possible that some day in the future some of the land being used for one purpose today can be proposed for another use in the future. We are very fortunate to have serving on this committee, George Thomson, who is considered an expert in this field.

During the past year, the selectmen have made every effort to keep abreast of all new legislation and to make our representatives in the House of Representatives and in the Senate aware of our feelings relative to all of these new proposed pieces of legislation. We are pleased to report that we have received cooperation from our representatives in the legislature on these matters.

Town Counsel Timothy Davern and our Assistant Town Counsel Harvey Rowe have had to contend with an ever increasing work load due to the various activities within the various boards of this town. These activities have increased as the various undeveloped areas have come under development.

By utilizing federal funds provided by the Comprehensive Employment Training Act, we were able to provide employment and training for some of our citizens who found themselves unemployed during the past year.

In cooperation with our MBTA designee, Carl Reardon, the Board of Selectmen met with the MBTA and school officials to find a solution to the proposed elimination of school buses within the town, and also the proposed discontinuance of services in the Forest Avenue area. We are pleased to report that these problems were solved to the satisfaction of all concerned. Your Board of Selectmen will continue to work toward a reduction in the MBTA assessment and charges being made by the MBTA to the Town of Swampscott.

This Board has investigated all possibilities of federal funding that are available for public works, police, fire, and public safety. The Board of Selectmen has participated in many hearings and meetings having effect on the future of our Town in order to keep abreast to all developments both within our own community and in surrounding communities.

To all of the other Boards, Committees, Elected Officials, and Citizens who assisted us during the past year, we wish to express our thanks for their help and cooperation during 1976.

#### **VOTED ARTICLE 2. TRIBUTE TO OUR TOWN MODERATOR**

Robert E. Donelan, as our Town Official, presented Richard B. Johnson with a plaque as an expression of official recognition for his twenty years of dedicated service to Swampscott.

Marvin J. Baker then presented Richard B. Johnson with a clock as an expression of affection and appreciation from Townspeople. To Mr. Baker's apology that an appropriate plaque had not, as yet, been affixed to the clock, our Dick Johnson replied, "Time for a Change!"

Attorney Philip A. Brine, Jr., followed with a prepared testimonial expressing the deep feelings of all who worked with Dick and the Townspeople in general. The testimonial will accompany the clock in Town Hall as a reminder to future citizens that Richard B. Johnson is, indeed, one of Swampscott's leading citizens.

That action on this Article be indefinitely postponed. Unanimous.

**ARTICLE 77.** To see if the Town will vote to amend the zoning by-laws of the Town of Swampscott by adding to Article III the following new section or take any action relative thereto:

Section 6A, Flood Plain/Wetland Protection Districts

A. The purposes of this section are as follows:

1. To provide that lands in the Town of Swampscott subject to seasonal or periodic flooding as described hereinafter shall not be used for residence or other purposes in such a manner as to endanger health or safety.
2. To protect, preserve and maintain the water table and water recharge areas within the Town so as to preserve present and potential water supplies for the public health and safety.
3. To assure the continuation of the natural flow pattern of the water courses within the Town of Swampscott in order to provide adequate and safe flood water storage capacity to protect persons and property against the hazards of flood inundation.
4. To protect the Town against the costs which may be incurred through the unsuitable use of wetland.
5. To conserve natural conditions, wildlife, open space and generally the amenities of the Town, and otherwise to preserve, protect and promote the health, safety and welfare of the public.

B. Definitions

1. Flood plains are low areas adjoining a body of water or a watercourse which have been in the past or can reasonably be expected in the future to be covered by flooding.
2. Wetlands are areas such as marshes, swamps and lowlands where ground-water is at or near the surface for at least six months of the year. (Vegetation characteristic of wetlands is listed in Ch. 131, sec. 40 of the Gen. Laws of Massachusetts, and on a simplified list, both on file at the Town Clerk's office.) These areas are subject to periodic inundation.
3. The Flood Plain/Wetland Protection Districts (hereinafter referred to as the Districts) are special Districts which are subject to the regulations of this section in addition to the regulations of the by-law which already apply to these areas. The Districts shall include all the above-described lands as shown on the Flood Plain Wetland Protection District Map by contour and/or elevation markings, following an evaluation of the vegetation, the natural high water mark, and the historical or the projected flood elevations. The Swampscott Flood Plain/Wetland Protection District Map, dated April 1, 1976 and signed by the Town Engineer, is hereby made a part of this by-law and is on file at the Town Clerk's office.

C. The District, as shown on the Flood Plain/Wetland Protection District map of April 1, 1976, shall be considered as overlying other Districts. Any uses permitted in the portions of the Districts so overlaid shall be permitted, subject to all the provisions of this section.

D. Restrictions and Appeal Procedures:

1. In areas included within this District, except as provided in paragraph 2 below, no building or other structure shall be erected, constructed, enlarged or otherwise created for any residence or other purposes; no filling, dumping, excavation, removal or transfer of gravel, sand, loam, or other material which will restrict or impede water flow or reduce the normal or flood water storage capacity shall be permitted.
2. Uses and acts for which a special permit may be granted by the Board of Appeals:
  - a. Construction of dams and other water control devices, so as not to diminish the original dimensions.
  - b. Bridges and like structures permitting passage between lands of the same owner, provided that such bridges and structures shall be constructed, maintained and used at the expense and risk of such owner. The Board of Appeals shall consider the effect of such structures on water storage and impediments to water flow.
  - c. Driveways and walkways ancillary to permitted or permissive use within overlapped district where alternative means of access are inappropriate and not reasonably feasible.
  - d. Agricultural and recreational uses, including golf courses, municipal parks, or related to boating, fishing, and any non-commercial open air recreation uses; and structures ancillary to these uses, provided that the ground area covered by such structures does not exceed 100 square feet.
3. All petitioners for a special permit to do any of the acts mentioned above,

shall first apply to the Conservation Commission for a hearing under the Wetland Protection Act. In addition to the requirements of Massachusetts General Laws, Ch. 131, sec. 40, petitioners shall submit copies of the Notice of Intent, together with maps and other engineering data to the following offices and boards through the Town Clerk:

- a. Town Clerk
- b. Board of Appeals
- c. Planning Board
- d. Town Engineer
- e. Board of Health
- f. Building Inspector
- g. Board of Public Works

c/o Town Hall, Swampscott, Ma. 01907

With the exception of the Town Clerk, each of these agencies shall study the permit application and forward a report and recommendations to the Conservation Commission within fifteen days, indicating approval, disapproval, or approval with conditions. Recommended conditions or reasons for disapproval shall be itemized and explained in writing. Failure of any of the above-mentioned offices or boards, with exception of the Board of Appeals, to reply within the aforementioned period will be deemed approval. The petitioners, after obtaining Orders of Conditions from the Conservation Commission, after a hearing pursuant to Chap. 131, sec. 40 shall petition the Board of Appeals which will conduct a public hearing with due notice in accordance with Chap. 40A as to the applicability of a special permit.

- E. In addition to the reports and hearings required in Section D-3, the following standards shall be considered in the special permit process:
  - 1. Any ancillary structures permitted shall be so designed and secured that during flooding the foundation will not be undermined, or the structure will not be floated off, battered off, or swept away.
  - 2. There shall be no danger of pollution to public or on-site water resources.
  - 3. Methods of drainage shall be adequate.
- F. If any land indicated on the map as being in the Flood Plain/Wetland Protection District is proved to be in fact not subject to flooding nor unsuitable for the proposed use because of drainage and topographic conditions, and if the use of such land will not be detrimental to the public health, safety and welfare, the Board of Appeals may permit building or other uses of such land.
- G. In granting a permit the Board of Appeals may impose reasonable restrictions based upon or in addition to the considerations listed in Section E and may set time limitations on the work to be done. The Board may require that the applicant post a cash deposit or surety bond, in form acceptable to the Town Treasurer in amount determined by the Board to be sufficient to ensure satisfactory completion of the work in compliance with the permit and any specific restrictions and limitations thereof, or the restoration of any area or unfinished work to its original condition.
- H. Special permission may be granted without the procedures outlined above if the Board of Health and/or the Conservation Commission certify that an emergency exists. Such permission shall be limited to the work required to alleviate the emergency, and shall include a definite time limitation.
- I. This zoning by-law shall not apply to maintenance of normal drainage in lands subject to this act.

Sponsored by: Town Engineer, Board of Public Works, Board of Appeals, Planning Board, Building Inspector, Board of Health, Building Code Board of Appeals, Conservation Commission and interested citizens.

**VOTED ARTICLE 77.** To accept the report of the Planning Board and adopt their recommendations as follows:

Favorable action on this article as described. Unanimous.

**VOTED:** To adjourn at 11:00 p.m. to Tuesday, May 18, 1976 at 7:45 p.m.

Attest: MARY HERBERT CHENERY,  
Town Clerk

**VOTED. To re-consider Article 54. Majority.**

**ARTICLE 54.** To see if the Town will vote to construct a float at the Town pier and appropriate the necessary money therefor or take any action relative thereto.

Sponsored by the Board of Public Works.

**VOTED ARTICLE 54.** To accept the report of the Finance Committee, as amended, and adopt their recommendations as follows:

That the Town appropriate the sum of \$1,500. to construct or purchase a float for the town pier and that the Harbor Master be instructed to collect \$5.00 from every boat owner to help defray cost of said float and the monies collected be deposited in the Town Treasury. **Majority.**

**ARTICLE 78.** To see if the Town will vote to amend the Zoning By-Laws of the Town of Swampscott by adding the following new section 9 to Article V thereof, to read as follows:

"In all districts, no site preparation in connection with a construction project for which a building permit is required shall be undertaken until the building permit has been issued. Site preparation is herein defined as a change in topography or cover, i.e.: excavation; dredging; filling; changing the grade; blasting; removal of trees or other vegetation.

"If the rights under such a building permit have not been exercised within the limits provided by existing statutes, and site preparation has already commenced, the land shall be restored by means of placing a top soil and/or plantings by the applicant."

or take any action relative thereto.

Sponsored by the Conservation Commission.

**VOTED ARTICLE 78.** To accept the report of the Planning Board, as amended, and adopt their recommendations as follows:

"In all districts, no site preparation in connection with a construction project for which approval is required from the Planning Board, the Board of Appeals or the Building Inspector shall be undertaken until such approval has been obtained." Site preparation is herein defined as a change in topography or cover, i.e.: excavation; dredging; filling; changing the grade; blasting; removal of trees or other vegetation. "Borings and test pits to determine subsoil conditions are not included in this definition."

"If the rights under such a building permit have not been exercised within the limits provided by existing statutes, and site preparation has already commenced, the land shall be restored by means of placing a top soil and/or plantings by the applicant." Yes: 196; No: 18.

**Article 79.** To see if the Town will vote to amend the Zoning By-Laws of the Town of Swampscott by making the following additions (underlined) to Article VI, Section 1, Paragraph 3:

"Every applicant for a subdivision permit from the Planning Board or a use permit from the Board of Appeals shall submit, together with site plans, an Environmental Impact Statement **signed by the applicant**, and said Board

shall make this Statement available for public inspection at least two weeks prior to any public hearing on the project. **The Statement shall be submitted before commencement of site preparation work.**

"The Statement shall include data on the physical environment, the soil conditions, the water conditions, both surface and sub-surface; the effect on town services, including traffic regulation, fire and police protection, Department of Public Works services, educational and recreational facilities, **present and projected traffic conditions and analysis of traffic impact**; the proposed immediate environment, including types and location of buildings, areas to be paved, landscaped or left in natural condition, recreation areas and whether these will be open to the public; and a statement as to the general environmental impact of the project on the town as a whole. The statement should be a technical document with supportive data wherever possible.

"Copies of the Environmental Impact Statements shall be sent to the **Planning Board**, the Board of Health, the Board of Appeals, the **Building Code Board of Appeals**, the Conservation Commission and any other appropriate town body, **and two copies shall be filed for public inspection at the Town Clerk's office**, at least two weeks prior to any public hearing.

"**The Town Board involved may deny the requested permit if in its opinion the Environmental Impact Statement submitted fails to comply with the requirements of this Paragraph of the Zoning By-law.**"

or take any action relative thereto.

Sponsored by the Conservation Committee.

**VOTED ARTICLE 79.** To accept the report of the Planning Board and adopt their recommendations as follows:

Favorable action on this article as described. Unanimous.

**ARTICLE 80.** To see if the Town will vote to amend the Town Zoning By-Law and Zoning Map in the following respects:

- I. By substituting in the second line of Article I, Section 1 of the Zoning By-Law the word "seven" in place of the word "six", and by adding a new class of district entitled "Residence A-4".
- II. By substituting in Article II, Paragraph 7 the word "two" in place of the word "three".
- III. By adding to Article III a new Section 3-A as follows:

**3-A. Residence A-4 District.**

1. **Use Regulations.** In the Residence A-4 District, no building or land shall be used for any industry, trade, manufacturing or commercial purposes, or for any other purpose except (1) any use permitted in the Residence A-2 District or (2) Clustered Single Family and/or Multi-family Dwellings, provided, upon the written recommendation of the Planning Board, a Special Permit is obtained from the Board of Appeals in accordance with the provisions of Subsection 9 of this Section. The purpose of "Clustered Single Family and/or Multi-family Dwellings" is (a) to promote better utilization of the natural features of the land through greater flexibility of design, (b) to provide for more efficient use of municipal services, and (c) to preserve open space for conservation or outdoor recreation purposes.

2. **Density.** The number of dwelling units shall not exceed the number which could otherwise be constructed on the tract, and in calculating this number there shall be excluded any lots which the Planning Board deems unbuildable lots whether by reason of (a) sanitary disposal, drainage, flooding, water pollution or water supply problems, (b) the need for substantial filling of wetlands, or (c) any combination of the foregoing. Occupancy of each dwelling unit shall be limited to a single family.

For the purpose of reducing the impact of substantial numbers of new dwelling units upon the Town and thereby promoting the convenience and welfare of the inhabitants, permits for only twenty (20%) per cent of the total dwelling units allowable under this Subsection shall be granted in any calendar year.

3. **Dimensions.**
  - (a) Maximum height in stories:  $2\frac{1}{2}$ ; Maximum height in feet: 35.
  - (b) Minimum tract area: 30 acres.
  - (c) Minimum tract frontage: 350 feet.
  - (d) Maximum area of tract which may be covered by buildings including accessory buildings or structures: 20%.
  - (e) No dwelling shall be located nearer to any tract boundary line than as follows:
    - Front Yard — 40 feet
    - Side Yard — 25 feet
    - Rear Yard — 25 feet.
4. **Buffer Strip.** Along all public street frontage of any tract in this District there shall be a continuous strip of trees and other foliage at least 40 feet in depth, broken only where necessary to provide appropriate access or egress. Such strip will be maintained in its natural state and in a sightly and well-kept condition.
5. **Parking.** At least 2 off-street parking spaces shall be provided for each dwelling unit.
6. **Open Space.**
  - (a) Provision shall be made so that at least 65% of the tract shall be left as open green space exclusive of roads, buildings and parking.
  - (b) Such open space shall be conveyed either to a trust, the beneficiaries of which shall be the homeowners within the tract, or to the Town Conservation Commission, or in part to both. Such trust shall have as one of its purposes the maintenance of such open space for conservation or recreation purposes.
  - (c) Any such trust shall convey to the Town a permanent conservation restriction which shall ensure the preservation of the open space for conservation or recreation purposes.
  - (d) Any such trust shall grant to the Town an easement over such open space sufficient to ensure that such open space is perpetually preserved as conservation or recreation land.
  - (e) Natural features such as ponds, streams, views, rocky outcrops, and stone walls, where possible, shall be preserved.
7. **Site Plans.** In addition to the information required by the Subdivision Regulations of the Planning Board to be shown on preliminary subdivision plans, the developer shall submit to the Planning Board the following:
  - (a) A map of survey drawn to a minimum scale of  $1''=40'$  by a registered landscape architect or registered civil engineer, showing contours at intervals of two feet and indicating existing roads and buildings, utilities and easements;
  - (b) A site inventory of existing conditions including but not limited to the following: water bodies, streams, wetlands, water tables, slope areas, geological features, soils, unique vegetation, historic features;
  - (c) A site plan showing common open space and ways and the general location type and number of units proposed. Such site plan shall also include all roads, parking, utilities, land coverage, drainage, open space community facilities, land use, and the proposed development in relation to the surrounding areas.
8. **Impact Statement.**
  - (a) An impact statement shall be submitted to the Planning Board for its approval projecting the effect of the development on town services, including but not limited to traffic regulation, fire and police protection, educational and recreational facilities, public works services, and on the natural ecology and surrounding area.
9. **Special Permit.** The Board of Appeals, after public notice of hearing and subject to such appropriate conditions and safeguards as it may impose, may grant a Special Permit for Clustered Single Family and/or Multi-family Dwellings upon the written recommendation of the Planning Board. The

Planning Board shall not recommend and the Board of Appeals shall not grant the Special Permit if it appears that because of soil, drainage, traffic and other conditions the granting of such permit would be detrimental to the neighborhood or to the Town, or if the granting of such permit would be contrary to the purpose of Clustered Single Family and/or Multi-family Dwelling set forth in Subsection 1 of this Section.

IV. By adding to Article IV, Section 1, after the words "Business B-3 District" in the second line, the words: "and a Residence A-4 District".

V. By adding at the end of Article VI, Section 3, Subsection 5(b) the following words: "and under Section 3(a) of Article III".

Sponsored by Horace Davenport et al.

**VOTED ARTICLE 80. To accept the report of the Planning Board and adopt their recommendations as follows:**

**That this Article be referred back to the Board to be appointed under Article 75 for study, a report to be made to the next annual town meeting. Unanimous.**

**ARTICLE 81.** To see if the Town will vote to amend the Zoning Map as the same constitutes and is part of the Zoning By-Law of the Town of Swampscott by adding thereto a Residence A-4 District embracing the following described area presently zoned in Residence A-2 so as to permit the use of the same for single and/or multi-family use, or take any action relative thereto; said area is generally bounded by Humphrey Street, Salem Street, and land of Tedesco Country Club and is specifically shown as Lot 26 on Plate 17 of the Assessors' Plans or Maps of the Town of Swampscott.

Vincent O'Brien addressed Town Meeting requesting a moment of silent prayer for the family of Herbert and Virginia Ellis whose daughter Sandra had met with a fatal automobile accident. Both Herbert and Ginny, as she is affectionately known, have been dedicated, active civic leaders for years. Ginny is currently on both the Recreation and Finance Committees.

Sandra Elaine Ellis was a member of Swampscott High School class of 1967; she was on the National Honor Society and a member of the Swampscott Band. Sandra graduated Cum Laude from Lowell State College. Sandra loved and lived music. She was a music teacher in Saugus for one year and had been accepted as the music teacher for Danvers High School.

Mr. O'Brien suggested the Town Clerk address an appropriate letter to the Ellis family expressing the condolences of the Town's people. The letter was dispatched.

Unanimous.**

ARTICLE 1. To see if the Town of Swampscott will vote to amend the Zoning By-Laws of the Town of Swampscott by adding the following Section 10 to Article V thereof:

Section 10. Flood Area Provision.

The review of building permits for permit approval shall include the design standards to ensure that all proposals are consistent with the need to minimize flood

damage. Definition of Terms shall be as listed in National Flood Insurance Program Part 1909.1 (which is on file with the Town Clerk, Planning Board and Building Inspector).

Building permits for new construction or alteration of structures at or below the Base Flood Elevation (Swampscott datum 16.1) as specified within the A and V Zones as designated on special Federal Insurance Administration Flood Insurance Rate Maps (FIRM), numbers 01 through 04, effective September 3, 1976 (which are on file with the Town Clerk, Planning Board and Building Inspector), shall be approved subject to the following:

## 1. Flood Proofing Regulations A and V Zones

- a. New construction or substantial improvement of residential structures shall have the lowest floor (including basement) elevated to not less than base flood elevations; or in the A Zone by floodproofed, i.e., be designed so that below the base flood level the structure is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy. Where floodproofing is utilized for a particular structure, a registered professional engineer or architect shall certify that the floodproofing methods are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the base flood, and a record of such certificates indicating the specific elevation (in relation to mean sea level) to which such structures are floodproofed shall be maintained with the Building Inspector. Non-residential structures shall be similarly elevated, or, together with attendant utilities and sanitary facilities, be floodproofed to not less than base flood elevations.
- b. Any new construction or substantial improvement to be undertaken within Zones A and V shall be in accordance with the Massachusetts Uniform Building Code, Section 748.0.
- c. Storm drainage systems shall be designed to reduce exposure to flood hazards.
- d. No subdivision plan shall be approved by the Planning Board unless each lot will be served by water and sanitary disposal systems certified by the Board of Health to be so designed as to minimize or eliminate infiltration of flood waters into the systems, and discharges from the systems into flood waters, in the event of flooding to base elevations.
- e. All public utility systems, including power, communications and gas, shall be designed to minimize or eliminate system interruption or damage in the event of flooding to base flood elevations.
- f. No mobile homes shall be placed within the areas designated on the Town's Flood Insurance Rate Maps (FIRM) as A or V Zones.

## 2. Zone V Regulations

- a. No land within the areas designated as V (Velocity) Zones on the Town's Flood Insurance Rate Maps (FIRM) shall be developed unless such development is demonstrated by the applicant to be located landward of the reach of the mean high tide, and meets the additional requirements of this zoning by-law.
- b. Existing uses/structures located on the land below the 100 year flood in coastal high hazard areas (Zone V) shall not be expanded; repairs and alterations not exceeding substantial improvement shall be in accordance with the Massachusetts Uniform Building Code.

Any man-made alteration of sand dunes within Zone V which might increase the potential for flood damage to existing structures is prohibited.

- c. New construction or substantial improvement of structures within Zone V must have the space below the lowest floor free of obstructions or be constructed with "breakaway walls" intended to collapse under stress without jeopardizing the structural support of the structure so that impact on the structure by abnormally high tides or wind-driven water is minimized. Such temporary enclosed space shall not be used for human habitation.
- d. All new construction and substantial improvements within Zone V shall be elevated on adequately anchored pilings or columns, and securely anchored to such pilings or columns so that the lowest portion of the structural members of the lowest floor (excluding the pilings of columns) is elevated to or above the base flood level. A registered engineer or architect shall certify that the structure is adequately anchored to withstand velocity waters and hurricane wave wash.
- e. The use of fill for structural support for existing structures, new construction, or substantial improvement of structures within Zone V is prohibited.

### 3. Variances

- a. The Board of Appeals may grant a variance from these requirements upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief in the case of
  - (1) New structures to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the flood elevation, or
  - (2) The restoration or reconstruction of a structure listed on the National Register or an Official State Inventory of Historic Places.
- b. Variances shall not be issued
  - (1) For any new construction, substantial improvement, or other development in a designated flood zone which would result in a significant increase in flood heights within the community during the occurrence of the 100 year flood.
  - (2) Except that the Board of Appeals specifically finds that owing to the circumstances relating to the soil conditions, shape or topography of such land or structures and especially affecting such land or structures, but not affecting generally the zoning district in which it is located, a literal enforcement of provisions of this by-law would involve substantial hardship, financial or otherwise, to the petitioner or appellant, and that desirable relief may be granted without substantial detriment to the public good and without nullifying or substantially derogating from the intent and purpose of this by-law, and
  - (3) Except that the Board of Appeals specifically makes a determination that the variance issuance will not result in significant increased flood heights, additional threats to public safety, extraordinary public expense, nuisances, fraud on or victimization of the public, or conflicts with existing local laws or ordinances.
- c. The Board of Appeals may authorize use variances within the flood plain, in accordance with 4. (c) of Section 3, Article VI of these by-laws as in any other zoning district within the Town of Swampscott.
- d. The applicant must be notified that the issuance of a variance to locate a

structure at an elevation below the 100 year flood level (Base flood elevation as herein defined) will result in increased actuarial rates.

- e. Upon the granting of such variance, the Board of Appeals shall require that:
- (1) A notice be recorded with the title records of the property at Essex South District Registry of Deeds, stating that the proposed construction will be located in a flood hazard area. Said notice will also contain a statement of the number of feet below the 100 year flood level that the lowest non-flood-proofed floor of the proposed structure shall be located.
  - (2) The Town Clerk maintain a record of all such variance actions, including justification for their issuance and the number of variances issued. The Clerk shall also send an Annual report to the Flood Insurance Administrator of the number of variances granted.

#### Authority and Interpretation

Where these flood area provisions impose greater or lesser restrictions or requirements than those of other applicable by-laws or regulations, the more restrictive shall apply. See also Article III, Section 6A of these by-laws.

#### Validity and Severability

The invalidity of any section or provision of this by-law shall not invalidate any other section or provision hereof.

#### Duties of the Building Inspector and Maintenance of Records

- a. The Building Inspector shall:

Maintain for public inspection and furnish upon request for the determination of applicable flood insurance risk premium rates within all areas having special flood hazards identified on a PHBM or FIRM any certificates of floodproofing and information on the elevation (in relation to mean sea level) of the level of the lowest habitable floor (including basement if habitable) of all new or substantially improved structures, and include whether or not such structures contain a basement, and if the structure has been floodproofed, the elevation (in relation to mean sea level) to which the structure was floodproofed;

- b. For the purpose of the determination of applicable flood insurance risk premium rates within Zone V on a community's FIRM.

- (1) Obtain the elevation (in relation to mean sea level) of the lowest habitable floor (including basement) of all new or substantially improved structures, and whether or not such structures contain a basement.
- (2) Obtain, if the structure has been floodproofed, the elevation (in relation to mean sea level) to which the structure was floodproofed.
- (3) Maintain a record of all such information.

take any action relative thereto.

Sponsored by the Building Inspector and the Board of Selectmen.

**VOTED ARTICLE 1. To accept the report of the Planning Board, as amended, and adopt their recommendation as follows:**

**To change the wording in Article 1, Section 10, Paragraph 1.A., to read:**

New construction or substantial improvement of residential structures shall have the lowest floor (including basement) elevated to not less than base flood elevations. Non-residential structures shall be similarly elevated, or, in the A zone, together with attendant utilities and sanitary facilities, be flood proofed to not less than base flood elevations i.e. be designed so that below the base flood level the structure is watertight with walls substantially impermeable to the passage of water

and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effect of buoyancy. Where floodproofing is utilized for a particular structure, a registered professional engineer or architect shall certify that the floodproofing methods are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the base flood, and a record of such certificates indicating the specific elevation (in relation to mean sea level) to which such structures are floodproofed shall be maintained with the Building Inspector. # TOWN TREASURER

GERARD L. CARON

The following report covers the calendar year ending 1976 while the proposed budgets and articles to be acted upon at the annual town meeting in May, 1977 will cover the fiscal year beginning July 1, 1977 and ending June 30, 1978.

During the year interest rates trended down both for the long term and the short term with tax anticipation note rates about 2.5% and bond rates about 5.5% at this time. However, from a historical view point borrowing costs are still quite expensive.

We must borrow in anticipation of taxes because we do not have enough working cash to bridge the two periods of heavy cash inflow from real estate assessments. Changing from a once a year real estate tax collection to a twice a year tax collection has reduced our tax anticipation borrowing costs but i feel that it is a questionable saving in view of the increased overall costs of collection.

During this year as quickly as we could we have taken advantage of a change in the law in October, 1975 which now permits the town of Swampscott to invest idle cash. Before that time we were not permitted to do this.

We are continuing our efforts to streamline and modernize our record keeping and office procedures so that our town will run as smoothly and effectively as possible.

We wish to express our appreciation to all who helped us in our efforts during the past year and look forward to continuing to be of service to all who feel that we may be able to provide information and assistance.

## BOARD OF ASSESSORS

ERNEST MANCHIN, Chairman

CHARLES J. HOEN, Secretary

ANTHONY F. PIERRE — Resigned

ANTHONY F. BENEVENTO

GORDON S. BOREK — Resigned

The Board of Assessors submits its annual report to our fellow townspeople for the year 1976 and in so doing, publicly expresses our appreciation to: Town Accountant, Keith Callahan, Town Counsel, Timothy J. Davern and Assistant Town Counsel Harvey F. Rowe for their valued assistance.

On November 18, 1976 Mr. Charles Hoen and Mr. Anthony F. Benevento were appointed assessors to fill the vacancies created by the resignation of Mr. Anthony F.

Pierre and Mr. Gordon S. Borek. Mr. Pierre was on the Board for nearly 20 years. During his last two years, as Chairman, he worked many hours on new construction, which resulted in a net increase in Property Valuation of over \$7.5 million. It was an outstanding job for which he deserves a lot of credit. Mr. Borek was on the Board for about eleven years. Based on his business, Engineering and Office Management, he contributed a great deal in the proper functions of the work of the Board. The present Board is working well together.

The following information and figures are given in an attempt to provide a base for answers to questions which you have been asking about taxes.

The figures which follow were taken from the Assessors' records, with some added, which were used in determining the tax rates for the past five years.

The first column shows, for each year, the gross amounts appropriated by the Town Meetings, for spending, and includes State and County assessments. The increase for the five year period seems high enough but of greater concern is the fact that the increase for the current year alone, over last year, is nearly \$2,000,000.

The figures in the next column contain receipts from the State, automobile excise taxes, licenses, fines, water, revenue sharing and other sources. It does not seem wise to expect that the estimated receipts and available funds will continue at the current high level. Congress is debating the question of the amount of Revenue Sharing. The State government is trying to take over the Lottery receipts. Also the State government has warned "tighten your belts" and do not expect as much help from us as you have received in the past.

The next column has the key figures, for these figures when divided by the total property valuations figures produce the annual tax rates. The increase for each year for the net amount to be raised are shown in the last column. After the first three years of fair amounts of increases, the total increase for the last two years skyrocketed to \$2,156,118.

The total property valuations figures have increased each year with \$7,512,475 of the increase developed in the last two years. This is quite a record. Large increases in new valuations are not expected for next year. There is only one large area, the Davenport property, for a sizable development left in town. The location is at the corner of Humphrey and Salem Streets and there is no activity there. The total permits issued by the Building Inspector, amount to \$1,944,390. However \$1,000,000 is the estimated cost for the second floor of the Rehabilitation Center. A small amount was reported as demolished, later the three story building on Humphrey will also be reported as demolished. A dwelling on Burrill Street, now owned by a church will also be dropped from the tax rolls. In comparison, the amount of permits for last year, for the same period, was much higher. As the assessors, by law, can use only January 1st as the assessing date the new values, partial or completed, must exist on that day.

The figures given are for the past and may be a guide for future action. If the net amount to be raised figure can be kept down, the tax rate will stay down.

Your assessors are interested in the smooth and orderly administration, without delay, of the entire tax process from the time of assessing the first new building until the taxes are paid.

# BOARD OF ELECTION COMMISSIONERS

ALFRED MASELBAS, CHAIRMAN  
J. DANE CHANDLER                      DOROTHY COLLINS  
JUNE MORSE

The Annual Town Census was conducted during the months of January and February, as per a ruling by the State General Laws, Chapter 51, Section 4, requiring that persons seventeen years of age or older be counted in the census. The total census count was 10,870 and a breakdown by precincts of this total is as follows:

Precinct 1.....	1,721
Precinct 2.....	1,875
Precinct 3.....	1,845
Precinct 4.....	1,786
Precinct 5.....	1,890
Precinct 6.....	<u>1,753</u>
Total .....	10,870

In conjunction with the annual town census, a school census was also taken covering children from ages 3 to 21, as required by Chapter 766, the special education state law in order to identify any children who may be in need of special services and educational programs.

## PRESIDENTIAL PRIMARY March 2, 1976

To bring in their votes to the Primary Officers for the Election of Candidates of Political Parties for the following offices:

Presidential Preference

District Members of State Committee (one man and one woman) for each Political Party for the First Essex Senatorial District

**35 Members of the Democratic Town Committee**

35 Members of the Republican Committee

35 Members of the American Town Committee

The polls were open from 10:00 A.M. to 8:00 P.M., as set by the Selectmen.

In the presidential primary election, the American Party was treated like the other two major parties; therefore, the communities using voting machines had to put the American Party on the voting machines and set the adjustment for three parties. The option to this was to conduct the entire Presidential Primary on paper ballots and not use the machines at all.

## Question No. 1

"Shall the Town pay one half of a premium for group health insurance for the surviving spouse and dependents of an insured police officer who was killed or who died from injuries received in the performance of duty, with the surviving spouse paying the remaining one half, and shall the Town also pay a subsidiary or additional rate?"

Yes .....	172	111	152	127	101	87	750
No .....	83	45	71	82	70	57	408

Due to the redrawing of the precinct lines effective as of July 1, 1975, for the purposes of legislative redistricting for the 1978 state election, as mandated by the adoption of Article 101 of the amendments to the state constitution on November 5, 1974, as passed by the voters, all former town meeting members had to run for re-election. The first top eighteen would be elected for three years, the second for two years and the third for one year. In cases of ties, a caucus was held prior to town meeting to break the ties, and also to fill two vacancies created by two resignations. The following are the terms of office:

## **NATIONAL AND STATE ELECTION**

**November 2, 1976**

To bring in their votes to the Election Officers on one ballot for the following offices:

Presidential Electors; Representative in Congress for 6th Congressional District, Councillor, United States Senator, Senator for 1st Essex District, Representative in General Court for 8th Essex Representative District (1), Representative in General Court for 9th Essex Representative District (1), Representative in General Court for 21st Essex Representative District (1), Clerk of Courts for Essex County, Register of Deeds for Essex Southern District, County Commissioners for Essex County (2).

To Vote Yes or No on the Following Questions:

### **QUESTION No. 1**

#### **PROPOSED AMENDMENT TO THE CONSTITUTION EQUAL RIGHTS**

Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and Senate on August 15, 1973, by a vote of 261-0, and on May 14, 1975, by a vote of 217-55?

**Summary**—The proposed amendment would provide that equality under the law may not be denied or abridged on the basis of sex, race, color, creed or national origin. This amendment adds one sentence to Article 1 of Part the First of the Constitution which now contains a general statement of individual rights, including the right to enjoy and defend life and liberty and the right to acquire and protect property.

### **QUESTION No. 2**

#### **PROPOSED AMENDMENT TO THE CONSTITUTION GRADUATED INCOME TAX RATES**

Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and Senate on August 15, 1973, by a vote of 199-66, and on May 7, 1975, by a vote of 228-41?

**Summary**—The proposed amendment would authorize the Legislature to substitute for the present system of flat or uniform personal income tax rates a system of rates graduated according to the total amount of income received. The Legislature would also be authorized to provide for reasonable exemptions, deductions, credits, and abatements and could base Massachusetts income tax provisions on provisions of Federal income tax law.

### **QUESTION No. 3**

#### **PROPOSED AMENDMENT TO THE CONSTITUTION**

##### **Absentee voting for religious reasons**

Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and Senate on August 15, 1973, by a vote of 259-0, and on May 12, 1976, by a vote of 262-1?

**Summary**—The proposed amendment would authorize the Legislature to provide for absentee voting by persons who hold religious beliefs in conflict with the act of voting on the day on which any election is to be held.

### **QUESTION No. 4**

#### **LAW PROPOSED BY INITIATIVE PETITION MASSACHUSETTS POWER AUTHORITY**

Do you approve of a law summarized below, which was disapproved by the House of Representatives on May 5, 1975, by a vote of 179-46, and on which no vote was taken by the Senate before May 7, 1975?

**Summary**—Section 1 of the act inserts a new chapter 164B into the General Laws and establishes a Massachusetts Power Authority, a body corporate and politic with seven members appointed by the Governor to staggered six year terms. The Authority is to establish and operate a bulk power supply system to supply wholesale electric power to utilities throughout the Commonwealth. The primary purpose of the Authority is to supply the Commonwealth with the power with the minimum adverse impact on the environment. The Authority is also authorized to engage in research and development of new sources of power, new siting techniques, and methods of environmental protection.

In carrying out its responsibilities, the Authority is authorized to adopt by-laws; adopt an official seal; maintain offices; sue and be sued; construct or acquire facilities either within or without the Commonwealth; issue revenue bonds and borrow money in anticipation of issuance of revenue bonds; acquire real and personal property; employ professional, managerial and other employees deemed necessary and fix their compensation to be paid solely out of revenues of the Authority; appear before other government agencies; apply for and receive federal or other grants of funds; and enter into contracts and agreements.

The Authority will build and operate all new generating and transmission facilities in the Commonwealth and has the option to purchase existing facilities through negotiation, condemnation, or eminent domain. After an initial two-year period, no other utility may construct a new facility unless the Authority certifies that it lacks the capability to finance the facility and the facility would further the purposes of the act.

The Authority will finance its activities by issuing revenue bonds. The Bonds will be exempt from state taxation, but will not be backed by the full faith and credit of the Commonwealth. Power will be sold to other utilities by contract but no special discounts or bonuses to promote the increased use of power may be given. Public hearings are required on all major contracts.

The Authority is required to develop a master, 20-year demand study and siting plan within 18 months of its incorporation, to be updated each succeeding year. Sites will be selected in accordance with the Electric Power Facilities Siting Council Act of 1973. The Governor and the community in which any facility is to be located must affirmatively approve the facility before it can be constructed.

The Authority will be subject to all applicable federal and state environmental standards and must obtain all necessary federal and state permits and complete all necessary environmental impact statements.

The Authority will be exempt from taxation but will make payments in lieu of taxes to cities and towns in an amount equal to the tax which would be paid of the Authority's real and personal property were owned by a private electric utility company.

The Authority is forbidden from engaging in promotional or image advertising. The Authority has the authority to bargain collectively with its employees and is subject to the provisions of Chapter 150 of the General Laws, which governs the conciliation and arbitration of industrial disputes. Employees of the Authority are not subject to the civil service law and rules. Employees of utilities displaced by the activities of the Authority have first preference in employment by the Authority.

Section 2 of the act amends section 43 of Chapter 164 of the General Laws to provide that if a city or town votes, in accordance with the provisions of Chapter 164, to establish a municipal utility and acquire the facilities of the utility currently serving the community, and the utility refuses to sell its property to the city or town, that the Department of Public Utilities will establish a fair price for the facilities, and the utility will be required to accept the price determined by the department and tender the deed for the facilities to the city or town.

## **QUESTION No. 5**

### **LAW PROPOSED BY INITIATIVE PETITION BANNING PRIVATE HANDGUNS**

Do you approve of a law summarized below, which was disapproved by the House of Representatives on May 3, 1976, by a vote of 197-35, and on which no vote was taken by the Senate before May 5, 1976?

**Summary**—The proposed legislation would prohibit the possession, ownership or sale of any weapon from which a shot or bullet can be discharged and which has a barrel length of less than sixteen inches. The prohibition would not apply to military personnel, law enforcement officers, federally licensed handgun manufacturers and wholesalers, common carriers in the ordinary course of transport, or to historical societies and museums. The act would not affect the possession of rifles, shotguns, and certain antiques and replicas. The proposal also does not change the existing statutory penalties for unlawful possession, ownership or sale of handguns, including provision imposing mandatory jail sentences.

The proposal would permit owners of handguns to surrender their weapons to any law enforcement agency in the Commonwealth within six months of the effective date of the act without incurring criminal liability. Those surrendering handguns within that six months will be compensated at a rate to be determined by the Commissioner of Public Safety.

## **QUESTION No. 6**

### **LAW PROPOSED BY INITIATIVE PETITION CONTROLS ON BOTTLES AND CANS**

Do you approve of a law summarized below, which was disapproved by the House of Representatives on May 3, 1976, by a vote of 146-85, and on which no vote was taken by the Senate before May 5, 1976.

**Summary**—The proposed act would require every beverage container sold or offered for sale in the Commonwealth to have a refund value of at least five (5) cents, and would prohibit the sale of metal beverage containers with flip-tops. It would apply to containers for beer and other malt beverages and to soft drinks. It would not apply to containers for dairy products or natural fruit juices, nor to containers which are biodegradable.

The act would authorize the Secretary of Environmental Affairs to certify containers as reusable or recyclable. It contains both enforcement and penalty provisions and would take effect on February 1, 1977.

## **QUESTION No. 7**

### **LAW PROPOSED BY INITIATIVE PETITION UNIFORM ELECTRIC RATES**

Do you approve of a law summarized below, which was disapproved by the House of Representatives on May 3, 1976, by a vote of 182-49, and on which no vote was taken by the Senate before May 5, 1976?

**Summary**—The proposed act would impose a general requirement that every electric utility company charge a uniform rate per kilowatt hour of electricity. The proposed act would except from this general rule rates charged to other electric utility companies and to residential customers who heat their principal place of residence by electricity. The Act would also permit a different rate to be charged residential customers for the first three hundred (300) kilowatt hours they consume each month, and would authorize "peak load" pricing whereby a higher rate than the uniform rate per kilowatt hour may be charged during the periods of the day or seasons of the year when consumption of electricity is the greatest. The Act would authorize the Department of Public Utilities to issue implementing rules and regulations and provides for enforcement.

## **QUESTION No. 8**

### **THIS QUESTION IS NOT BINDING OIL REFINERY AND DEEP WATER PORT**

The following is a non-binding advisory question: "Shall the General Court enact legislation authorizing the construction of an oil refinery and a deep water port, subject to the approval of those communities directly affected and any reservations that the General Court may prescribe?"

**Summary**—The Legislature has placed this question on the ballot in order to determine whether the people favor or oppose the construction of an oil refinery and deep water port in Massachusetts. The vote on this question is not binding on the Legislature. The question deals with the general advisability of such construction and is not a specific proposal for a facility. If a specific proposal is made, it would be subject to approval by the communities directly affected and subject to any restrictions imposed by the Legislature.

## QUESTION No. 9

### THIS QUESTION IS NOT BINDING SUNDAY CLOSING LAWS

The following is a non-binding advisory question: "Shall retail stores including package liquor stores, so called, be allowed to open for business on Sunday?"

**Summary**—The Legislature has placed this question on the ballot in order to determine whether the people favor or oppose the Sunday opening of certain retail stores, including package liquor stores. As the law now stands, most retail and all package liquor stores must be closed on Sundays. The vote on this question is not binding on the Legislature.

The total voter turnout for the November election was 81% of the total registered voters. A record 642 absentee ballots were processed, including students in the States and abroad, citizens living abroad (including Federal personnel), servicemen, and the permanently and temporarily disabled.

# BOARD OF HEALTH

Robert H. Bessom, M.D., Chairman

Howard E. Rotner, M.D.

Robert W. Murphy

Kent F. Murphy, C.H.O.

Health Officer

The Board of Health members and staff wish to pay tribute to Edward L. Cashman, Jr., M.D., who resigned from the Board of Health this year after serving the Town of Swampscott as a Board of Health member since 1958; and welcome Mr. Robert W. Murphy our new Board member.

The Board of Health received 155 death certificates of Swampscott residents resulting in a crude death rate of .9 per thousand. Five years ago we had 125 deaths. The average age at death this year was 73.4 years, 71.4 years last year, and a five year average of 72.3.

There were 96 births reported of which 5 were premature. The number of births for the last five years were as follows: 1975, 86; 1974, 89; 1973, 92; 1972, 114; and 1971, 119.

Heart and Circulatory diseases were the main causes of deaths with 74, followed by Cancer, 40; Respiratory System, 32; Geneto Urinary, 4; Accidental Deaths, 3; and Suicide, 1.

Communicable Disease reported this and the preceding four years are as follows:

	<u>1976</u>	<u>1975</u>	<u>1974</u>	<u>1973</u>	<u>1972</u>
Chicken Pox .....	18	85	153	45	168
German Measles .....	0	2	0	17	4
Hepatitis Infectious .....	2	3	2	1	2
Measles .....	1	0	1	11	0
Meningitis .....	1	0	0	0	2
Mumps .....	2	0	0	1	0
Salmonellosis .....	2	0	4	3	1
Scarlet Fever .....	3	1	0	8	0
Strep. Throat .....	0	28	6	8	122
Tuberculosis .....	0	1	1	2	1
Whooping Cough .....	0	1	0	1	0
Dysentary Bacillary .....	2	0	2	0	0

Communicable disease statistics indicate a very low year for everything, ie, quite a reduction in Chicken Pox; No German Measles; one Measles Case, however, this case had the Measles vaccine in 1967; no Pertussis and three cases of Scarlet Fever. There were no new active cases of Tuberculosis. However, one was found after the person had moved to another community indicating that the disease is still with us and requires constant vigilance. All contacts were followed up. It may very well be possible that all infectious and contagious diseases are not being reported to the Board of Health as required.

The Tuberculosis skin testing program was conducted for 211 students in Grade IX and 166 students in Grade V, as well as 77 students new to the Swampscott School system.

A total of 113 teachers and school personnel were Tuberculin tested for recertification.

The school health program was conducted at the Hillel Academy. A total of 109 students, kindergarten through Grade VIII, were tested for vision, hearing, as well as given immunizations, dental inspections and counseling where needed.

The annual September Rabies Clinic was conducted for the 56th consecutive year. Of the 854 dogs licensed, 595 dogs received inoculations against rabies, and 90 dogs were reported as having received their vaccine elsewhere. A total of 58 dog bites were reported of which our veterinarian, Dr. Arthur A. Barry, quarantined 40 dogs as a result of bites. There were 6 other animal bites and 4 dog bite incidents from out of town dogs.

The Well Child Conference was and is held at the quarters provided by the First Church In Swampscott Congregational every first Tuesday morning of each month for preschool children. Dr. Albert Brown, pediatrician, along with our Public Health Nurse, Mrs. Ann L. Greenbaum, R.N., and volunteers Mrs. Nelson Darling and Mrs. Robert McInerney conduct the conference.

This year we were directly involved in the National Swine Flu Program. The Federal Department of Communicable Disease Control established very rigid guidelines and had local Boards of Health administer clinics according to priorities established by Communicable Disease Center, Atlanta, Georgia.

The first clinic was held at the two Senior Citizens Housing Projects at Doherty Circle and Duncan Terrace. 29 persons received the bivalent vaccine containing Swine Flu and A Victoria Flu vaccine.

The next clinic was held using the facilities of St. John's School, Humphrey Street. 713 persons received bivalent, and 73 persons received monovalent vaccine containing Swine Flu vaccine only. This was held October 26, 1976. The following day, October 27, 1976, 243 people received bivalent and 532 people received monovalent vaccines.

The fourth and fifth clinics were held using the facilities of the First Church in Swampscott Congregational. On November 10, 1976, 346 persons received bivalent and 39 received monovalent vaccine; and on December 1, 1976, 153 people received bivalent vaccine.

The physicians in our area were supplied vaccine and administered 655 bivalent and 24 monovalent inoculations.

The total number of patients receiving vaccine were 2,886. The program was most difficult to conduct for various reasons; Federal Guidelines, reactions to injections, and reception and confusion of the general public. We would like to thank the nine physicians, 25 volunteer nurses and 42 clerical assistants who graciously gave of their time to work at the clinics. We would also like to thank the St. John's Church and the First Church In Swampscott Congregational for donating their facilities for the clinics.

The Meals on Wheels program delivering meals to the elderly and incapacitated, which the Meals on Wheels Committee coordinated and was conducted by the Board of Health for three years, was transferred to the newly created Swampscott Council on Aging.

The Board of Health instituted several new programs this year. A Hypertension Clinic is held the first Tuesday of each month for senior citizens. An average of 40 persons per clinic participate.

A Prenatal Education Program for expectant parents was held at the Swampscott Public Library for six consecutive Wednesday evenings during the months of October and November. Seven couples participated. Other programs offered to the community were Cancer and Breast Self-examination, and a Diabetes film and group discussion.

Our bathing beaches remained pollution free for swimming. However, our clam beds were not allowed to be opened because of bacteria counts which are much more critical for clams than swimming.

Sewage is still a problem. We presently need a sewerage system in one particular area of Town because of overflowing septic systems. It is hoped that this health nuisance will be abated after an appropriation of funds at Town Meeting, and that those dwellings in unsewered areas be provided this basic necessity of life.

There were 325 gas permits taken out and inspected by Mr. James J. McCarriston, Gas Inspector; and 306 plumbing permits issued and inspected by our Plumbing Inspector, Mr. Peter McCarriston. The Mosquito and Noxious Weed Program was active and produced a reasonable amount of control. Wet areas, breeding spots, yards, parks, etc. are treated and residents who have complaints relative to mosquitos and weeds are urged to call the office.

This year we collected \$2,447.50 from all fees for licenses issued by this department and the money was turned over to the Town Treasurer.

Solid Waste continues to be a most serious problem through the northeast and especially here in Swampscott. However, we have a short term solution with our private collector to dispose of our material at Resco. Our long term solution lies in either South East Solid Waste Council or the Beverly Solid Waste Project. S.E.S.W.C., each year as we reach the end of our discussions, falls apart. This year we dropped Aenco-Cargill and are negotiating with Combustion Engineering, Inc. The council as well as the town made changes in the existing legislation and will consider joining the District if the Legislation and proposed contract are in the best interests of the town. The Beverly Solid Waste Project is being followed very closely. However, it is too soon to evaluate this project.

We wish to thank the townspeople, private agencies and other departments for their cooperation and assistance. If any additional information is needed regarding health activities, we will be pleased to furnish same.

# BOARD OF PUBLIC WORKS

GEORGE J. BURKE, Chairman  
FELIX A. MARINO                      JOHN H. McDEVITT

DONALD L. HUSTON, P.E., Superintendent and Town Engineer  
ROBERT J. SOTIROS, Assistant Town Engineer and Assistant Superintendent

## MAJOR PUBLIC WORKS PROJECTS

### SANITARY SEWER EXTENSIONS CONSTRUCTED BY PUBLIC WORKS EMPLOYEES:

Foster's Dam Area (from The Greenway 600 feet along easement toward Carson Terrace)

Sewer construction in the Galloupe's Point section was delayed because the necessary easements could not be obtained from some of the residents in the area.

### DRAIN EXTENSIONS CONSTRUCTED BY PUBLIC WORKS EMPLOYEES:

Intersection of Sunset Drive, Longwood Drive, Minerva Street and Bristol Avenue.

Windsor Avenue drain was extended 240 feet.

Additional catch basins were constructed on Essex Street near Jackson Park and Monument Avenue near Howland Park.

Drain along the B & M RR to Muskrat Pond was continued.

## **WATER MAIN EXTENSIONS CONSTRUCTED BY PUBLIC WORKS EMPLOYEES:**

Improvements on the water system as recommended by Fay, Spofford & Thorn-dike, Consulting Engineers, are 99% complete. The only loop which is not completed is the 12" main connection from Forest Avenue to Parsons Drive to Humphrey Street. Work on this project has been started and if all the necessary easements are obtained, the project will be completed by 1978.

## **CHAPTER 90 ROAD WORK:**

Essex Street (Burrill Street to Jackson Park and from the Essex Street bridge to Eastman Avenue)  
Walnut Road  
Sargent Road

## **ROADS RESURFACED AND/OR RECONSTRUCTED WITH TOWN FUNDS:**

Redington Street (from Humphrey Street to Blaney Street)  
Bristol Avenue  
Foster Road (Jessie Street to MacArthur Circle)  
MacArthur Circle  
Sunset Drive  
Stone Court  
Alvin Road  
Clarke School area

Asphalt emulsion slurry seal was again used this year for the finished surface on one Town road — Phillips Street.

This type of surface has proven to be very economical when applied to secondary surfaced roads which already have a binder course of bituminous concrete for a base.

## **SIDEWALK REPLACEMENT:**

Bituminous concrete sidewalks have been constructed and/or replaced on:

Essex Street (Burrill Street to Jackson Park and from the Essex Street bridge to Eastman Avenue)  
Sargent Road  
Walnut Road  
Lincoln House Point  
Greenwood Avenue (on the south westerly side from King Street to Rockland Street)

The program for reconstruction of concrete sidewalks was continued in 1976.

New concrete sidewalks were reconstructed on the easterly side of Humphrey Street from the beginning of Fisherman's Beach to the Fish House, and also on both sides of Redington Street from Humphrey to Blaney Street.

## **PARKS**

The Public Works Department is responsible for maintenance of all parks and malls in the Town. This year Public Works took over the maintenance of two additional parks—Linscott Park and the area in front of the newly acquired town beach formerly the New Ocean House beach.

A new surface was put down on the Clarke School basketball court.

All the tennis courts were re-lined.

A new sprinkler system was installed in the practice football field at Phillips Park.

The program of removing dutch elm diseased trees was continued during the year. The wood was cut to fireplace length and made available to town residents at the Public Works garage on Paradise Road. Also, spraying for Oak Leaf Skeletonizer was continued as well as the use of leaf mulch collected from trees throughout the Town. This has proven to be a savings in the purchase of top soil for the department.

Approximately 12,146 sq. ft. of land abutting the south westerly side of Phillips Park was donated to the Town. This land will be used to provide direct access to the newly acquired town parking lot.

## CEMETERY

Approximately 103,300 sq. ft. of land abutting the cemetery was acquired and this land will be used for cemetery expansion. Approximately 4,000 new graves can be laid out in this area and these new lots will net the Town Treasury approximately \$500,000.

## ENGINEERING

Duties performed by the Engineering Division

Design and inspection of all sanitary sewers, storm drains and water main extensions; cemetery expansion; layout and surface grading of streets and sidewalks; general land surveys of town properties; drafting of plans; preparation of estimates both cost and quantity for general public works projects; drawing of construction contracts and specifications; furnishing information from town records for subdivisions; keeping Assessors plates up-to-date.

T.V. and smoke testing was done inside the pipes on a section of the sewer system. The purpose of this testing was to determine the exact location of infiltration/inflow problems so that they can be corrected.

## TREATMENT PLANT

The Swampscott Water Pollution Control Plant was officially turned over to the Public Works Department to operate and maintain this year, although Public Works personnel have been operating the plant on a marginal basis since it was first put on line in March, 1974. Additional funds were appropriated for completion of the plant by the Board of Public Works.

### Major Items Completed and/or Added:

	Cost
Effluent pumps and piping modifications	\$2,521
Water service pumps .....	2,000
Grinder .....	3,500
Floor sealed in chlorinator room .....	1,000
Repair to heating boiler .....	300
Extend bituminous concrete .....	500
Laboratory incubator .....	150
Rollers for chlorine tanks .....	300
Manual chain fall for chlorine room .....	600
Reactor screw and hopper repaired .....	450
Oil fill pipe raised .....	100
Fan on air conditioner repaired .....	100
Washer, dryer, uniforms .....	800

## MISCELLANEOUS

Twelve new pilings were driven at the town pier and two new floats were added to the end of the pier (both floats were constructed by Public Works employees). Material for one float was paid for by the Swampscott Yacht Club.

Reconstruction of the Lodge at Jackson Park was started and the Lodge should be 100% complete this coming spring.

Fifty feet of guard rail was installed at the intersection of Greenwood Avenue and Rockland Street.

Repairs and painting were done at the Fish House.

A beautification program of Essex Street (from Burrill Street to Eastman Avenue) was continued this year. This includes grass strips and tree planting as well as previously mentioned new sidewalks and roadways. The Board hopes to complete this program next year.

## PUBLIC WORKS BUDGET

The Board of Public Works will continue to work on a "productivity factor" to keep the Public Works Budget at a minimum. The following shows the Public Works Operating Budgets for the last five years:

1976 .....	\$90,000
1975 .....	87,500
1974 .....	84,000
1973 .....	82,900
1972 .....	82,900

## RESIGNATIONS AND RETIREMENTS

DAVID GILMORE - Chairman

FRANCIS J. CASSIDY - Vice-Chairman

ARMAND CAPADAQUA - Treasurer

JOHN A. MASSEY - Assistant Treasurer

JOHN F. O'HARE - State Member

LEONARD H. BATES, JR. - Executive Director and Secretary

The office of the Authority is located at 6 Duncan Terrace and is open daily from 9:00 A.M. to 5:00 P.M. every day except Saturday and Sunday. Regular and Special meetings are held as often as necessary to carry out the business of the Authority. The Annual Election of Officers is held on the First Tuesday following the Annual Town Election.

The Authority was established in 1948 and is an independent corporation from the Town. Four members are elected by the voters of the Town and the fifth member is appointed by the Secretary, Executive Office of Communities and Development for a five year term. The other four members are elected for a five-year term with

staggered expiration dates to guarantee a majority of expiration dates to guarantee a majority of experienced members to carry out the functions of the Authority. All vacancies are filled by a vote of a joint meeting between the Authority and the Board of Selectman until the next Annual Election to fill the unexpired term.

Major and minor improvements and maintenance programs are carried out on all three projects under the control of the Authority.

**PROJECT 667-3**

Under the date of November 13, 1975, the Authority filed with the Department of Community Affairs a Preliminary Application for Financial Assistance-Part I for additional units for the Elderly.

On February 5, 1976, the Administrator for the Department of Community Affairs informed the Authority that the Department has allocated all of the bonding authorization currently available for the development of elderly housing and, therefore, they are awaiting the approval of additional bonding authorization in order to review any further requests for financial assistance.

**SECTION 8**

Under the date of December 16, 1976, the Authority filed an Application for Existing Housing under Section 8 - Housing Assistance Payments Program with the United States Department of Housing and Urban Development. There will be allotted to the Metropolitan area a total of 210 Units for the 1977 Calendar Year.

The Authority at this time would like to thank Attorney Malcolm F. MacLean, Jr. for his many years of devoted service to the community in the field of public housing for its veterans and the elderly.

The Authority will miss his many services and the pleasant association with him through the many years he served the Authority.

# PLANNING BOARD

GLENN W. BARTRAM, Chairman

GARROLD E. BAKER, Secretary

JOHN F. MILO

LEON J. McENTEE

ALEXANDER B. WAY, JR.

At the annual town elections Mr. John Milo was elected to another five year term on the Planning Board.

This Planning Board held fifteen meetings during the year for normal business as well as approving plans under Section 8IP, Chapter 41 of the General Laws of the Commonwealth. The Board also met with various individuals and Town Committees concerning proposed zoning amendments and other town matters.

The Board held three public hearings, one for zoning articles in the annual town warrant, a subdivision permit for Sutton Place and one for flood area provisions at the special town meeting.

The Board met with various groups to prepare proposed zoning articles for the annual town meeting. Mr. Bartram, Chairman of the Board, reported on these articles at the town meeting.

## THE PUBLIC LIBRARY TRUSTEES

PAUL C. MILLER, Chairman

MARGARET DiGIULIO

FLORENCE S. ALEXANDER, Secretary

---

SALLY DUPLAIX, Director

After several years on the Board of Trustees, Mr. C. Kermit Downs declined to run for re-election, and Mrs. Florence S. Alexander was elected to the Board.

Early in the year the Trustees voted to move the Children's Room to its former location on the second floor, and to establish a separate Adult Reference Room in the present Children's Room location. Mr. David Fried, a Swampscott architect, volunteered his services to design the layout of the new Children's Room. The library received funds from the town to purchase carpeting for the second floor area as well as the back staircase, and, as the year drew to a close, all the carpeting was installed and the necessary repairs had been made. We are anticipating an eventful and exciting 1977 during which the actual room changes will be made. Another decision by the Board was to keep the library open from 9 to 1 on Saturdays during the summer months, which proved to be a worthwhile venture.

Mrs. Theresa Kenneally retired after many years as a library staff member in September, and Mrs. Patricia Goodwin joined the staff as Reference Librarian. Mrs. Goodwin holds a Masters degree in Library Science from Simmons College, and has been a bright and welcome addition to our staff.

The library continues to grow and expand in many areas. Circulation figures for 1976 reached a high of 107,500; items and attendance figures topped 74,000. Adult attendance showed a 12% increase since last year, and an astonishing increase of 22% since 1974.

During the past year the Library borrowed some 2,279 books and records from the Eastern Region Bookmobile, for both the Children's and Adult rooms, which added over 6,800 to the total circulation count. Through Inter-library loan (Boston Public and local libraries), we borrowed 65 books for our patrons; we also lent three books to other libraries.

During 1976, nine groups used the film-ordering service which our Library offers. Through this service, nearly 2,800 people viewed some 400 films shown during 90 film programs. Our special thanks again go to Sam Levy, our volunteer projectionist, for his fifth year of faithful service in this capacity. We also would like to express our appreciation to Mrs. Losano, Mrs. Nielsen and others for providing refreshments for this program. Any organization in the town which complies with the simple requirements may order free-loan films through the library.

The year 1976 was an active one for the Children's Room. Programs were offered for children of all ages and boasted high attendance levels. The preschool hour continued to be the most popular program as, once again, two hour-long sessions per week were not enough to include a long waiting list of interested youngsters. "Frog Flight" was the theme of this year's summer reading club, for which over one hundred young readers signed up. Successive pieces of a "frog flight" mobile were awarded to members for the completion of each book, and a huge party early in September made a pleasant finale for all concerned. A new trial program of arts and crafts for older children was co-sponsored by the Friends of the Library and the Swampscott Art Association. The series of six Saturday morning workshops in a variety of handicrafts entertained a large number of enthusiastic youngsters who claimed they would like to see more of this sort of thing in future years. An innovative summer program of tee-shirt painting stretched into the fall months, and many enjoyed the pleasure of designing and creating their own wearing apparel. All in all, the year 1976 was a busy and progressive one.

Approximately 100 Large Print materials were added to our collection upon receipt of a grant from the Bureau of Library Extension. These LSCA Federal funds were part of a grant which we shared with the Abbot Public Library in Marblehead. We are currently preparing a printed list of all of our Large Print holdings. As the year ended we received notification of an additional LSCA award for Visual Resources to serve both the visually and physically handicapped members of our community. In order to implement the funds from this new grant, the staff is working with the newly formed Council on Aging in an attempt to contact all residents over 60 in the community.

The Friends of the Swampscott Public Library, with Mrs. Barbara Wermuth as President, again continued to assist the library in various capacities. 1976 was the fifth year in which the Friends sponsored the VITA program whereby volunteers were trained at the library by the IRS and then assisted townspeople in preparing their tax returns. The Friends held an evening reception in May for staff, Trustees, school librarians, library volunteers and VITA volunteers.

Over \$550 was realized from the annual book sale held by the Friends in September. With part of the proceeds the Friends bought the library a book truck, 3 cassette holders, a Polaroid camera, a sixteen-inch political globe, a duplicating machine for small items and name tags for the staff and volunteers. The group also purchased the set of Swampscott Bicentennial pictures which were taken by Sam Levy on July 4th, 1976 and had been displayed in the library. These have been placed in a photograph album and will be kept in the vault. Financial assistance was also given toward various programs held in the Children's Room.

The Volunteer Program has been fortunate in having many dedicated workers assisting with various library duties, both behind the scenes and with the public. Together they average about 35 hours a week, or the equivalent of one full-time person. They include Ms. Connie Schlotterbeck and the Mrs. Sally Appel, Bertha Coraine, Ursula Deveney, Charlotte Gassman, Betty Feffer, Janice Frisch, Margaret Greehan, Irma Lager, Eileen McMahon, Joan Popeo, Harriet Stiles, Adele Taymore and two students, Jo Lesser and Kathleen Speranza.

Our collection of records and cassettes has been updated and improved during the past year. Many classical music cassettes have been added along with the Time-Life Series on the Ages of Music and another series on individual composers. An attempt is constantly being made to keep up with the more popular types of music as well. The increase in use of these audio-visual materials by patrons over the past year has been nearly 30%.

In addition to the many individual donations of books, records and puzzles this year, the Library has purchased books from generous annual contributions made by the Temple Israel Sisterhood and the Upper Swampscott Improvement Association, as well as books in memory of Albert W. Lalime and Joanna Morse. Books were also received in memory of Mrs. Josephine Rideout and Miss Alice Leslie. A handmade creche scene was donated at Christmas time by Mrs. Chester Fairchild in memory of her son, Mr. Donald Fairchild. Our thanks also go to the Cottage Gardeners of Marblehead and Swampscott for their annual Christmas decorations and Temple Israel Sisterhood for the Chanukah display.

Among the many local groups, clubs and organizations to use the meeting room facilities this past year were the North Shore University Women, Friends of the Library, VITA program, League of Women Voters, Swampscott Theatre Company, Swampscott Art Association, North Shore Home Health Aid, local sports and historical groups, as well as a series of Pre-Natal Education classes sponsored by the Health Department.

During the year the Library was represented by several staff members at professional meetings of the Massachusetts Library Association, New England Library Association, Greater Boston Public Library Administrators, Merrimack Valley Library Association, Eastern Region, Essex County Cooperating Libraries Adult Services Roundtable of M.L.A., and the Andover Sub-Region Workshops.

We wish to close this report with our appreciation and thanks to the Library Director, Ms. Sally Duplaix; the regular full and part-time staff members; our Custodian, Mr. Angelo Losano, who has just completed twenty-five dedicated years as a library employee; and the townspeople of Swampscott for their continued enthusiastic support and encouragement.

# BOARD OF APPEALS

T. PAUL CORCORAN, Chairman

KATHLEEN F. WAY

CHARLES F. BUCKLAND

---

Associate Members:

WALTER T. MUDGE

ANTHONY CORSO

The Board of Appeals of the Town of Swampscott herewith submits its annual report for the year 1976.

Public hearings were held on thirty-seven petitions for twenty-two use permits, fourteen variances, and one concerning a decision of the Building Inspector.

Thirteen use permits and eight variances were granted. One use permit petition and two requests for variances were denied. On the advice of the Assistant Town Counsel, it was decided that the petition concerning the decision of the Building Inspector was not within the Board's jurisdiction. The Board allowed seven requests for use permits and five petitions for variances to be withdrawn without prejudice.

All of the above decisions were voted unanimously.

A court decision was received during the year which upheld the Board's denial of a use permit for retail stores at the King's beach Garage property on Humphrey Street.

Three decisions concerning the denial of a use permit and of a variance and the granting of a use permit have been appealed to the Superior Court.

We are grateful to Assistant Town Counsel, Harvey F. Rowe, Jr. for the excellent manner in which he has handled all of the Board's legal matters.

The continued cooperation of Building Inspector, John F. Burke, Police Chief Carlin, Fire Chief Hyde, and the members of both the Traffic Study Commission and the Conservation Commission is appreciated.

Amount of Building Fees Collected, including witness fees and certificates of inspection fees ..... \$4,380.60

The usual work involved with each building permit issued includes the processing of the building permit application through the other interested Town departments, fees collected, plans examined and zoning regulations taken into account. After the building permits are issued, inspections are conducted by myself, at the appropriate times, and administrative follow-up by the Administrative Assistant is completed. Considering the number of permits issued and the on-going work involved with major commercial and municipal construction, this Department has been actively engaged.

During the year we saw the completion of the Swampscott Mall and the completion of "Phase I" at the Hawthorne's Crossing multi-family complex. These extensive construction projects involved many inspections, conferences and a great deal of administrative paperwork and follow-up.

The "400" multi-family project, which suspended construction during last year, was re-started and the completion of the third-building shell is expected to be accomplished in the coming year.

Elsewhere throughout the Town, additions were made and refurbishing of several business premises were undertaken.

The Jewish Rehabilitation Center obtained a building permit to construct a second-floor addition, housing 80 beds. This project has been well received by the residential neighborhood, which it abuts, and could be used as a prime example of how residential and quasi business interest can co-exist in a spirit of cooperation.

The addition to the Shaw Jr. High School is progressing. Much time has been spent by this Department, and will continue until the completion of this project, to insure that construction meets all safety and other Massachusetts Building Code requirements.

During the year a considerable amount of time was allotted to the inspection of schools, churches and other places of public assembly. Under the State Building Code, places of assembly must meet certain safety requirements. Places of public assembly were inspected, letters of work to be accomplished were sent and upon inspection, to insure completion and compliance, were issued the required certificate of inspection. Under the Massachusetts State Building Code, most places of public assembly must be inspected and issued a certificate of inspection annually and a report sent to the Department of Public Safety. Also, Day Care Centers were inspected and appropriate reports were filed.

The development and presentation of a Flood Plains Article was submitted and passed at the Special Town Meeting. These provisions will require that public records be kept of certain construction details of buildings constructed within areas designated as subject to flooding. This legislature is important to the Town's people because, unless the Town adopted such regulations, flood insurance would not be available to homeowners. A special thanks is due Attorney Marjorie Burke of Marblehead for her outstanding efforts in assisting this Department and others in the drafting and passage of this Article.

The Administrative Assistant to the Department provided increased service to the Community by being available each morning at the Office to have business matters attended to and to answer questions. Also, the Assistant accumulated field data and other information necessary for the Building Inspector to make decisions and act on Department business. The Assistant has been an invaluable asset to the Department and Community.

Throughout the year, Appeal Board Hearings were attended and inquiries regarding zoning and building questions, were appropriately answered and/or acted upon. All business, relating to the duties of the Smoke Inspector and Fence Viewer were also carried out.

Finally, all required local, state and national reports were filed and the finances of this Department were accounted for.

## **BUILDING CODE BOARD OF APPEALS**

THOMAS F. KILEY, CHAIRMAN  
ERLAND S. TOWNSEND, JR., SECRETARY  
DAVID FRIED                      JOHN F. MILO                      RICHARD P. MAYOR

In accordance with Article IV, Section 2, of the By-Laws of the Town of Swampscott, the following report is submitted.

In accordance with the provisions of "The State Building Code" the following persons, having been appointed by the Board of Selectmen, comprise the "Building Code Board of Appeals."

Thomas F. Kiley  
Erland S. Townsend, Jr.  
David Fried

John Milo  
Richard P. Mayor

There have been no applications placed before the Board during the calendar year of 1976.

The Board has met with Mr. John Burke, Town of Swampscott Building Inspector, on two occasions to assist him in interpretations relative to the application of the Building Code.

This Board stand ready to discharge its duties in accordance with the laws, rules and regulations, as specified by the Commonwealth.

# CONSERVATION COMMISSION

MR. JOHN A. DECAMP III

MRS. MERRILL I. FELDMAN

Co-Chairmen

MRS. CARLYLE HOLT

MR. JOHN F. MILO

MR. ROLAND DUBE

MRS. CHARLES F. EWING

DR. NATHAN RISER

After years of effort, 1976 was a milestone for the Commission as the town adopted two protective environmental zoning regulations. The Commission held many meetings with representatives of the Boards of Health, Public Works, Appeals, Planning, and the Building Inspector and Assistant Town Counsel and together drafted a Wetland Zoning Article. This article No. 77 was adopted at the Annual Town Meeting. In addition, Flood Plain Zoning was adopted at the December Special Town Meeting.

Another major accomplishment was the completion of work on Linscott Park. It is hoped that the park will be open for general use by spring. The park compliments the Olmstead Mall and the Administration area and greatly enhances the entrance to the town.

The Commission held many hearings throughout the year on projects subject to the Wetland Protection Act, Chapter 131, Section 40. The application of Modern Decorators to alter wetland off Puritan Road, proved to be the most protracted series of hearings and was finally resolved and Orders issued in conjunction with the Department of Environmental Quality Engineering.

The decision of the Superior Court on the Harold King Forest land taking was issued in October. The amount was far in excess of the appraised value of the land. Therefore, the Commission has applied for additional state aid from the Self-Help Funds and has also pledged money from the Conservation Fund to help defray the additional expenses incurred by the town. The Forest is an extremely valuable part of the town's open space resources and it is hoped it will continue to be widely used as a site for school field trips and for the enjoyment of citizens at large.

At the annual election in June, the Commission elected co-chairmen for the first time. Mr. DeCamp and Mrs. Feldman now serve in that capacity. All the members expressed great appreciation to Esther Ewing for all her hard work and dedication during her tenure as Chairman, and look forward to her continued membership on the Conservation Commission.

Future projects include work to complete the Conservation Master Plan, establishment of a trail system in the Harold King Forest, development of a bikeway in town and continued mapping of the town's wetlands for inclusion in the Swampscott Wetland Zoning Map.

# **FIRE DEPARTMENT**

WILLIAM R. HYDE, Chief

The following is the report of the Fire Chief for the year 1976:

During the year 1976 this department answered a total of 1,192 calls. Of these calls 36 were building fires, 30 were traffic accidents, 68 were medical aids. The remainder of these calls included lockouts, false alarms, mutual aid runs, details, etc. We inspected and issued 37 permits for oil burners.

## **APPARATUS**

The apparatus of this department is in excellent condition due to the constant preventative maintenance program performed by the department mechanic, Private Robert Pierro. All new equipment is performing to our expectations. Our ladder truck is getting close to the replacement stage due to age and running hours. We are anticipating replacement in 1980. A new chief's car voted by last year's town meeting has been delivered and put into service.

## **FIRE DRILLS AND INSPECTIONS**

Fire drills were conducted at all schools during the year 1976. These drills were conducted in an orderly and efficient manner and credit is deserved by the principals and faculty who supervise these students during the drills. I have made frequent visits to the Shaw Junior High School during the construction period to see that all safety precautions are being taken during construction. The students and faculty are to be commended for their cooperation during this difficult time. All mercantile, public, and other buildings have been inspected according to the law. Inspection of property is a valuable branch of the fire service and we of the fire service are more than happy to do our part in this most important work. Citizens of Swampscott are urged to contact their Fire Department for suggestions on fire prevention and fire safety. The number to call is 595-4050.

## **FIRE ALARM SYSTEM**

The fire alarm system is in very good condition with the exception of some overhead wiring that will eventually have to be replaced. Fire alarm boxes in some areas of the town will also have to be replaced at a future date. We will be installing a new underground fire alarm cable on Humphrey Street sometime in the spring. Money for this project was voted by town meeting last year. All fire alarm boxes are tested on a regular basis by the Deputy Chief of this department and the town electrical inspector to insure proper working operation of each box. Maintenance of the fire alarm system in the Town Hall and the Library is performed by the town electrical inspector through the budget of the Fire Department. The fire alarm system is a very important operation of the fire department. Fire alarm boxes on the street posts make it possible to have emergency equipment on the scene at any given time. Residents and their children should become familiar with the use of the fire alarm box so as to be able to operate it in case of emergency. Residents should also let their children know that a severe penalty can be imposed for pulling a false alarm, the cost to the town every time a piece of equipment leaves the station, and the possibility of injury to the firefighters. I would ask the residents to notify the fire department whenever the light over the fire alarm boxes in their area is out so we can repair it immediately. This light serves as a visual means to anyone not familiar with the area.

## **PERSONNEL**

During the year 1976 we have added five new members to this department. They are as follows: Kevin F. Breen, 47 Paradise Road, Swampscott; John M. Chaisson, 261 Hale Street, Beverly; Robert F. Wilson, 55 Shelton Road, Swampscott; Richard Carmody, 14 Birch Street, Saugus; and Kevin M. Thompson, 77 Middlesex Avenue, Swampscott.

With the addition of these new men the department is now at full strength. Being at full strength we will be able to assign two more men to the Phillips Beach station adding to the protection in that area.

The personnel of this department have completed the first responder first aid program required by the state under the direction of the American Red Cross, and Private Edward Lotti of this department who is the coordinator of the program for the Red Cross.

## **ATLANTIC No. 1 HANDTUB**

The Atlantic No. 1 Handtub attended eleven New England League Musters. The locations are as follows: Lawrence, Newburyport, Pepperell, Essex, and Marblehead, Massachusetts, Bath and Topsham, Maine, Derry, New Hampshire, Napanoch, New York, Peacedale, Rhode Island.

The Handtub had four first place finishes. They won \$2,025 in prize money, the first time a handtub has ever won over \$2,000 in a single season. They were the 1976 New England States Veteran Firemen's Bicentennial Champions, awarded the "John F. Cutter Memorial Trophy" and the "Thomas J. Saltzer Memorial Trophy". They were the New England League Champs six times in the last ten years. They attended a Bicentennial muster in Coshocton, Ohio, and took first place and many trophies.

The Crew and Officers of the Atlantic wish to thank the townspeople for their support throughout their best season yet. On July 2, 1977 the Atlantic will be sponsoring a muster here in Swampscott to celebrate the Town's 125th Birthday.

## **RECOMMENDATIONS**

I recommend that additional personnel be appointed to this department.

I recommend the installation of additional hydrants in areas where protection is deficient.

I recommend the replacing of overhead fire alarm wires where needed throughout the town.

I recommend the replacing of fire alarm boxes throughout the town where needed.

I wish to express my sincere appreciation to the Board of Selectmen, Finance Committee, Town Meeting Members, Auxiliary Fire Department, all town departments, and especially to the Officers and Firefighters of my own department for their splendid cooperation during the year 1976.

During 1976 the Bicentennial Committee saw the culmination of its programs and its three permanent projects planned for the town's observance of the nation's 200th anniversary.

In March the American Revolution Bicentennial Administration (ARBA), Washington, D.C. designated Swampscott a Bicentennial town and sent the Board of Selectmen a national Bicentennial flag.

In May the committee received a plaque of special commendation signed by Gerald R. Ford, President of the United States. The recognition and award were made to the town because of the fine Bicentennial-oriented programs presented by the committee, the churches, schools, and other local organizations.

The three permanent Bicentennial projects completed by the committee are:

One thousand booklets "Swampscott '76" were printed and distributed. By popular request and with cooperation of the selectmen two thousand additional copies were printed.

A memorial boulder with bronze plaque listing the names of the Swampscott revolutionary war soldiers was placed on the Monument Avenue mall and dedicated on July 4th. Landscaping around the wave-washed memorial boulder brought from Whales Beach will be completed in the Spring.

Participants in the dedication ceremony, in addition to the committee, included Edmund F. Curley, historian, Board of Selectmen, the clergy, representatives of the veterans organizations, campfire girls, boy scouts and girl scouts. The committee printed and distributed fifteen hundred souvenir programs of the July 4th memorial dedication exercises.

The committee sponsored the preparation and printing of a booklet on Swampscott's early history written and illustrated by pupils in the Stanley School second and sixth grades. It presents the elementary school pupils' interpretation of their town's history as recorded in Richard B. Johnson's book, "Swampscott in the 17th Century." The booklet, to be printed in the Spring, will serve as an introduction to the town's early history for future elementary school grades.

FREDERICK D. GREEHAN

The following is submitted as the 1976 report of the Committee to Investigate Hazards:

The Committee to Investigate Hazards has noted with interest the fact that the mail boxes on Elmwood Road near the U.S. Post Office are now arranged so that they are no longer accessible on a drive-up basis for direct deposit from within an automobile or other vehicle. This was the recommendation of this Committee in a previous report which pointed out that the former arrangement, while admittedly providing a convenience, actually created a traffic hazard.

## GROWTH POLICY COMMITTEE

GEORGE B. THOMSON, CHAIRMAN (Precinct 6)

PETER POULOS (Precinct 1)

JAMES J. McCARRISTON (Precinct 3)

LOUISE LaCONTE (Precinct 2)

ALEXANDER TENNANT (Precinct 4)

DEBORAH SEIBERG (Precinct 5)

ROBERT E. DONELAN, Chairman of Board of Selectmen

GLENN W. BARTRAM, Chairman of Planning Board

MARY POWERS, Conservation Commission Designee

MALCOLM F. MacLEAN, JR., Chairman of Housing Authority

KENT F. MURPHY, Board of Health Designee

In accordance with the provisions of Chapter 807 of the Acts of 1975, the Selectmen established a Growth Policy Committee in February, 1976, to participate for the town in the formulation of a Massachusetts Growth and Development Policy.

The Committee met on several occasions, held hearings to invite citizen growth policy inputs, responded to a complex Office of State Planning questionnaires and issued a report on behalf of the town which received a state Bicentennial award. It is summarized as follows:

Members of the Swampscott Growth Policy Committee have agreed that a general "no growth" attitude should be adopted and implemented by the town immediately.

Committee members also agreed on certain "undeniable facts which underlie the specific elements of their policy statement."

Those include:

1. Swampscott now has a high urban density — almost 5,000 per square mile;
2. There is a relatively low amount of natural open space;

3. Town quality, character and amenities have deteriorated since 1950; and
4. Development has made no demonstrable contribution to service cost and tax control.

The committee agreed that only development which was previously authorized and is underway in accordance with present zoning should be completed.

In their conclusion, committee members noted that the growth policy and implementation recommendations should be regarded as only the first stage in a continuing effort to restrict further development in Swampscott.

"The town is now all too familiar with the consequences to date of a failure to design and achieve a desirable future: dense urbanization, high costs and taxes and loss or irreplaceable natural open space."

Swampscott is also familiar with the consequences of dense growth in neighboring communities: heavy through traffic congestion, hazards, noise and of the state's failure to provide corrective facilities.

"We urge town officials to act decisively and promptly to end the deterioration by adopting the policies and initiating the measures advocated above," the committee stated.

No outside agency, state or regional, can or will provide significant assistance except to deal with limited needs and consequences of over-development. The town must act in its own behalf.

Committee members also recognize that most reports of this sort tend to result in little more than routine thanks for serving and for producing another fine document for the files.

To insure that the Swampscott Growth Policy Statement and its recommendations receive serious attention, three articles are being submitted to the Board of Selectmen for inclusion in the warrant for the next special or annual town meeting (1977):

A. To see if the Town will vote to instruct the Board of Public Works not to extend or expand streets, sewers of water lines in the Upper Swampscott area northwest of Essex Street except as required to serve existing dwelling units and to require approval of any plans or programs for extension or expansion of such utilities to serve existing development by both the Planning Board and the Conservation Commission.

B. To see if the town will vote to instruct the Board of Public Works and the Planning Board to alter the Town Plan by deleting, without exception, all "paper" streets and lots not held in ownership separate from that of adjoining land and shown on an endorsed, recorded or other plan for more than five years.

C. To see if the Town will vote to adopt and implement Growth Policy Committee recommendations to stabilize current land use as outlined in the "Recommended Implementation Program" of the 1976 Growth Policy Statement.

Growth Policy Committee members also offered the following comment on the state of the town as it relates to growth.

The 1976 Town Meeting continued the incremental establishment of a stable land use policy by its favorable action on several zoning and control measures.

Acceptance of cooperatively developed wetlands restrictions was a major accomplishment.

Although other measures were assigned to a "study" or "indefinitely postponed," partially due to the unusually large and confusing number of restrictive proposals, there is little doubt that all will be back for future consideration and that many will be added to the zoning by-laws in the next year or so.

The trend is based on growing awareness that the dwindling supply of natural open space now is more important and valuable as a community asset to preserve what remains of the town's quality and character than it is as a commodity for private gain.

The issues have become clearer as physical and fiscal deterioration are recognized as the price paid for allowing and encouraging growth beyond reasonable densities.

What one pays for intensive growth in uncontrollable property taxes has become as conspicuous and painful as what one sees in crowding, congestion and environmental degradation.

The contention that those now living in a community with almost 5,000 persons per square mile are denying others some "rights" has been factually and logically baseless in this case for many years.

Swampscott zoning has encouraged in-migration and dense settlement for decades.

It is time to look to other larger and more open communities for growth since, unfortunately, the town's small three square mile area is not flexible. Public and private open space naturally has diminished rapidly until what little remains cannot provide the balance necessary for an attractive community.

The happy accident of a seaside location, and not enlightened zoning, is responsible for what amenities and values remain.

Fortunately, constructive steps have been taken in recent years. Minimum lot sizes were doubled in the '50's. A Conservation Commission was formed to receive tax title and other lands for public use (King Forest, Chick Estate, Palmer's Pond). A new acquisition policy was initiated in '73 and other action (wetlands) was taken recently.

Presumably, more will follow as the negative effects of high densities are more widely recognized.

The critical growth point was passed years ago but the failure to go as far as necessary then does not excuse delay or ineffectual action now.

Although less open space remains, its very reduction has made it more critical.

Recent accomplishments indicate growing awareness that the town cannot afford the luxury of relying on zoning which may have been suitable for a 1930's growth situation, to deal with congested 1970's conditions.

# HARBORMASTER

ALBERT DOANE

I wish to express my sincere appreciation for the excellent cooperation given to me by Charles Bickford and Assistant Harbormaster, Gordon Kelly, when I took over the job of Harbormaster.

I am grateful to the Civil Defense Department for the use of the two way radios. This was very helpful. I also wish to thank the Town Departments and residents for their fine cooperation throughout the boating season.

My hope is that the 1977 boating season will be as safe as was the boating season in 1976.

Amount of Permit fees collected ..... \$1,328.00

Included in the Permits issued were: addition to the Essex County Bank; stores at the Mall; new houses and repairs and upgrading of present wiring.

The Office hours of this Department are 8:00-11:00 a.m. and again at 5:00-6:00 p.m. daily, Monday thru Friday. During these hours, permits are issued, many questions answered and appointments for inspections made.

Investigations of damaged wiring were made after several house fires. Inspections were made after the electricians had replaced damaged wiring and before it was put into service.

Several re-inspections were made when work or materials did not meet the requirements of the Massachusetts State Code or the Bylaws of the Town of Swampscott.

## DEPARTMENT OF VETERANS SERVICES

CHARLES W. DWYER, Director

The average case load was rather steady during the year and compared closely with the previous report. Because of the slow economy and job scarcity, many new recipients qualified for benefits on a short time basis pending employment.

The budget was about the same as a year ago. Although costs rose, our hospital cases were few, and we had no nursing home care. Hikes in Social Security and Pension incomes helped to offset increases in the cost of living. Thus, the burden on the Town-State tends to be offset with continued use of federal funds wherever possible.

## JAWS OF LIFE COMMITTEE

DOUGLAS F. ALLEN, Chairman

EDWARD T. LOTTI

JACK L. PASTER

REV. JAMES G. SHEA, C.S.S.

PAUL A. SHERRY

DONALD J. STINSON

ROBERT F. WILSON

Formed late in 1976 by the Board of Selectmen, the committee has met several times and formed plans to raise a goal of \$7,000.00 to purchase a Jaws of Life Rescue Tool. Those communities that have this equipment testify to the valuable life saving features of this tool in cases of motor vehicle accidents and the committee believes that with community wide recognition voluntary contributions will free the taxpayers of this further expense. The committee plans to mail a letter to all residents with individual follow ups where appropriate in order to meet the goal by the Annual Town Meeting.

# KENNEL STUDY COMMITTEE

RALPH FULLER, Chairman  
DR. ARTHUR LAGER                      JAMES S. FENELON

The State has changed the holding time for stray dogs from seven (7) days to ten days (10) this year. What this means is it will cost the town \$50.00 to hold a dog at a local veterinary hospital for the ten days and \$20.00 to have this stray dog destroyed, a total of \$70.00 per stray dog. The town's appropriation for a year is \$2,500.00 and just a total of 36 stray dogs will cost \$2,520.00 to hold at the hospital.

If the town would build a shelter to keep these dogs confined the cost would only be to feed them at a cost of approximately \$5.00 per week, a cost of \$180.00 for board.

Time is important to a dog officer and having a shelter nearby would increase the time to be given to his work. Also stray dogs could be placed in the shelter at any given hour.

This year a shelter should be built and stop having tax dollars wasted any longer.

## MEMORIAL DAY COMMITTEE

CHARLES W. DWYER, Veterans Agent, Chairman  
GEORGE CHEPES, American Legion, Post 57  
MOODY E. JOHNSON, V.F.W. Post 1240

Services were held Sunday morning, May 30th at the Lutheran Church, Marblehead, followed by an observance at the Swampscott Cemetery. Prayers and benediction were offered by the Rev. John H. Barrett, Jr. of the Church of the Holy Name. Post rituals were read by officers of the American Legion and the Veterans of Foreign Wars.

Robert E. Donelan, Chairman of the Board of Selectmen, spoke in behalf of the Town. The ceremony closed with taps and a volley from the firing squad.

Flags and wreaths were placed about town in memory of former veterans. An Open House was held at the Legion quarters on Burrill Street.

## NORTH SHORE REGIONAL VOCATIONAL SCHOOL DISTRICT

ANNUAL REPORT (1975-1976)

The North Shore Regional Vocational School District began its fourth year of operation on July 1, 1975. This school year may be termed a transitional one for it marked both the phase-out of the Intermin facility in Salem and the establishment of

a greatly expanded skill center program in the USM building in Beverly. Several important goals were accomplished during this fiscal year. Among them were:

- the occupation of 24,000 square feet of floor space on the ground floor level of the USM plant in Beverly.
- the renovation of these spaces into five new but temporary vocational shops and classrooms. These were Plumbing/Heating, Painting/Decorating, Refrigeration Appliance Repair, Auto Mechanics and Auto Body Repair. These renovations were completed for the opening of school in September, 1975.
- expansion of the vocational offerings from four to ten programs, plus the addition of the aforementioned five, as well as a new Culinary Arts training program on the top floor of the same USM building. This Cooking and Baking course is unique in the State in that the pupils prepare and serve a cafeteria-style luncheon to approximately 225 USM employees and others on a daily basis. The students cook all the rolls, pastries, cakes and pies, as well as prepare salads, soups, sandwiches and three hot entrees daily. It may be said that the Culinary Arts program is truly one of the most successful ones in the Commonwealth.
- the final negotiations for a ten year lease were completed with USM management people. The lease is a unique one in that it is extendable (at the District's option) for two additional five year periods, at reasonable rates as established and spelled out within the lease proper. Thus, District housing costs are foreseeable for the next twenty years. Because of heavy start-up costs, USM Corporation agreed to accept sliding scale rental rates for the first few years, with the base rate slightly increasing in each of these years. The lease was finally consummated early in February of 1976.
- the completion of plans for renovating 192,000 square feet of space on four floors of the USM building (North End), for conversion into shops and classrooms to be used as a new regional vocational high school. These plans were based upon educational specifications prepared earlier by the Superintendent-Director. The working drawings and specifications were completed in March of 1976. These were prepared by architects and engineers from Alderman and MacNeish, Inc., West Springfield, Massachusetts.
- in April, 1976 the renovation project was put out to bid by USM Corporation. Bids were opened and awarded in late April of 1976 and the renovation work began approximately three weeks later. The target date for completion was designated as August 28, 1976.
- plans and specifications were completed for a new school cafeteria funded by the Federal School Lunch Program. A grant of approximately \$75,000 (representing 3/4ths of the total cost of this project) was awarded.
- the decision was made to purchase and recondition a fleet of used busses for pupil transportation starting in September, 1976. Several of these busses were accumulated during the year with the remainder being purchased early in the next fiscal year. A Transportation Manager/Mechanic was engaged to recondition the busses, to plan routes and to hire and train a group of drivers for the emerging fleet.
- plans were prepared for the construction of a school bus repair garage of approximately 2,400 square feet to be located near the Northeast corner of the building.

— after a series of consultations with professionals in the field, the Committee decided to include a Project Adventure course in the emerging high school Physical Education program. To this end, plans were completed for a confidence-building obstacle course to be located on the playing fields directly north of the building.

— at mid-year, Guidance Coordinator Peter D. Mooney created a new school catalog for distribution to area residents. This colorful brochure provides an outline of each of the sixteen vocational training programs scheduled to be offered in the next school year. These include, in addition to those previously mentioned, Food Service/Short Order Cooking, Cosmetology, Carpentry, Masonry, Welding, Small Gas and Marine Engine Repair, Health Services Occupations Technical Illustration, Machine Technology, Distributive Education and Resort Service Occupations. These program selections were made by the Curriculum Needs Sub-Committee and confirmed by the Vocational Advisory Council. This brochure was widely distributed by Mr. Mooney in a series of career information assemblies held in the junior and senior high schools of member cities and towns.

— the Principal, Mary Lou Jadwin, working with the Superintendent-Director, finalized staffing plans for the new regional high school and began a long series of interviews to find competent staff for the emerging high school. A total of 900 candidates were screened for the thirty open positions, resulting in 179 interviews during the Spring of 1976. Faculty staffing was largely completed by the close of '75-'76 school year.

— the Committee made plans for the eventual phase-out of the Interim vocational educational program which had served the needs of District children on a temporary basis during the preceding three years. It was decided to permit Interim pupils having one year of training remaining to complete their programs on an interim or half-day basis if they chose to do so. Of course, these students were given the option of enrolling as full time high school pupils during the next school year. It was decided that the '76-'77 school year would be the last one in which vocational programs would be offered on a half-day skill center basis.

As the fiscal year came to an end, the building renovations were rapidly nearing completion, ordered equipment and supplies were being delivered, and the school was being made ready for occupancy.

The District Committee looks forward to the next decade, confident that its staff of dedicated people, working within the newly-renovated USM building, will insure a quality vocational education program (at a modest cost) for the residents of its member municipalities.

## PERSONNEL BOARD

PAUL E. GARLAND, Chairman  
JAMES E. HANLEY                      JAMES J. McCARRISTON  
ANN WHITTEMORE

GLORIA WEBSTER, Clerk

In accordance with Section 3 (f) of the Personnel Board By-laws, the Personnel Board herewith submits its seventeenth annual report to the Board of Selectmen and to the citizens of the Town of Swampscott.

The Board was deeply saddened by the sudden death of Chairman Bill Nelson. Bill had served as a member for over five years, and was in his second year as Chairman. His experience and contributions were invaluable and will be missed.

Margaret Cameron, a veteran Board member with over four years' service, including several as clerk, resigned during the year. Margaret was one of our two town employee representatives and was an objective and dedicated member.

We welcome two new members to the Board, Jim McCarriston, replacing Margaret Cameron, and Ann Whittemore, who will complete the remainder of Bill Nelson's term.

During the past year the Board met with any department, Board, and individuals who requested discussions pertaining to job classification, wage scales, promotions, and any related matters under the jurisdiction of the Personnel Board.

As a result of these meetings, and after considerable consideration, research, and documentation, the Personnel Board recommended two articles in the December, 1976 Special Town Meeting, and will sponsor several articles in the warrant for the 1977 Annual Town Meeting.

The Personnel Board wishes to thank the Board of Selectmen, Finance Committee, Bargaining Agent Tom Driscoll, Town Counsel Tim Davern, Town Accountant Keith Callahan, and the many other individuals and Boards who assisted us throughout the year. We give special thanks to our Clerk, Gloria Webster, and our Secretary, Kay Donlon, for their continued support and expert performance.

# RECREATION COMMISSION

MRS. VIRGINIA T. ELLIS, Chairman

JAMES C. CALLAHAN, Vice Chairman

CHARLES E. SNOW, JR.    VINCENT H. LaCONTE    MRS. FRED A. HAMSON

MRS. ALLIE BLODGETT    R. WARREN HOPKINS, JR.

-----

DONALD R. HALLETT, Coordinator

The Recreation Commission entering its fifth year of service to the town has provided programs and activities to meet the needs and wishes of the community. The Commission has been very active meeting with many groups, Commissions and Boards of the Town adding new programs and up-dating some of its more successful ones.

Programs, activities and organizations that are directly or indirectly sponsored by the Recreation Commission are: Sailing Program, Swampscott Theatre Company, Senior Citizen Recreation Center, Babe Ruth Baseball, Pop Warner Football, Arts & Crafts Programs, Band Concerts, Beach and Park Programs (summer), Shaw Friday Night Recreation Program, Saturday Recreation Basketball, Summer Basketball Programs for boys and girls, Women's volleyball, Girls' Softball, Elementary and Junior High Gymnastics, Tennis Instruction, and Tennis Permit System, Summer Field Trips for youngsters, Rink House Attendant (winter), Youth Hockey.

The Commission, with professional assistance from the Department of Public Works, will continue to improve playgrounds and other recreational facilities in town. The demand for use of our facilities grows each year and scheduling the use of these fields and courts is very involved and time consuming. With the help of the Dept. of Public Works, the Recreation Commission has and will continue in the future to keep these areas and facilities maintained to the best of our ability.

The policy of collecting a registration fee for most of our programs, as well as permits and stickers, will be continued this year. In the past four years the Commission has returned more than \$17,000 to the town's general fund and will add more to this figure before the end of the present fiscal year.

The Commission would like to express its appreciation to the Board of Public Works, Public Works administration, and all personnel for their cooperation and assistance over the past year. We also thank the School Administration and their employees for the use of their facilities and personnel needed to carry out many of our programs.

The Commission and Recreation Coordinator, Donald Hallett, extend their gratitude to the people of our community for their suggestions, cooperation and assistance and hope to have the continued help and support of the townspeople as we continue to expand and improve our programs.

# TRAFFIC STUDY COMMITTEE

The traffic pressures upon the Town did not lessen in 1976. Motorists have taken to the side streets to bypass the major bottlenecks. The result, further congestion.

To help where we could, this Committee over the past year took the following action:

1. Initiated periodic traffic counts around the Town to identify the latest problem areas.
2. Gave testimony at Appeals Board hearings regarding the traffic effects of proposed new construction and changes of use:
  - a. Opposed an additional small shopping complex adjacent to the Mall.
  - b. Opposed a shopping mall at Kings Beach Garage.
3. Presented factual opposition to the Planning Board regarding their approval of another New Ocean House residential development with Woodbine Avenue access off Puritan Road. The blind nature of the Puritan Road curve and the vision obstruction from the metal fence will some day come back to becloud this approval. The ill defined covenant for the widening of the north side of Woodbine is but a pallative, ignoring the real traffic hazzard of the blind curve.
4. Made several court appearances and testified at the request of Town Council in support of Appeals Board decisions.
5. Participated at Town Meeting in support of several protective zoning by-laws:
  - a. Rezoning of New Ocean House from two to one family.
  - b. In support of minimum 40,000 sq. ft. zoning for the remaining undeveloped sections of Town, and thereby minimize future traffic problems, the direct result of more growth.
  - c. Opposed cluster zoning for its inherent encouragement of growth in areas where it might not otherwise occur.
6. Attended all "808" Zoning By-law Committee meetings, and at the request of that Committee, voiced supporting reasons for 40,000 sq.ft. minimum zoning and opposition to cluster zoning.

From this summary, it might appear we have been a negative, obstructionist committee. Perhaps we are, if it is negative and obstructionable to very much want to preserve Swampscott as it is, and not let this Town's major roads spiral down to mini Lynnways. Our tools for holding this line have been few. With current economic conditions, State and Federal monies for remedial road work have not been forthcoming. We again stress that Use Permits and Zoning By-Laws have a direct bearing upon traffic problems. We have seen no evidence that new growth pays its own way on the tax bill.

At year's end, the conversion of the Shaw Junior High to high school use was well along with most of the heavy building and site work completed and finish work and renovation of the existing building was underway. As nearly as can be determined, the entire project was on schedule in accordance with the budget approved by the Town Meeting. Projected opening of the facility remained scheduled for 1977.

The Committee met frequently during 1976 to deal with the anticipated large variety of problems typical of any major project and with the special problems involved in full use of the Shaw School while substantial construction and renovation were underway. It is a tribute to all concerned that work progressed relatively smoothly despite a most difficult environment for both the school and construction programs. Given a continuation of a cooperative and positive approach, it is anticipated that the project and the Town's other school facilities will provide housing for the academic program well into the next century as forecast by the School Building Needs Committee.

In early 1977, the Committee will review the High School situation and its use as a "middle school" for Grades 7 and 8 and Grade 6 as required. If it appears appropriate and necessary, there will be a final report including recommendations for the future use of the High School based on the Committee's earlier 1975 and 1976 studies of needs and use of available space to meet them. In 1976, the Committee reported to the Town Meeting that "It became the Committee's responsibility to sift carefully through a rather extensive list of improvements considered desirable by the School Department to identify items which might be defined as essential. The Town's fiscal situation (with no reasonable tax control measures in sight) and the "State Aid" situation (with no prospect of assistance from that quarter) dictated use of the most limited and conservative criteria of absolute necessity and the elimination of all items which might be considered maintenance." The Committee recommended further study to insure that proposals, if any, are based on the strictest definition of demonstrable need.

The School Building Needs Committee has been inactive during the implementation of its recommendations by the High school Building Committee and others. As anticipated, the Town will save millions of dollars by conversion and renovation rather than construction of a new facility as recommended by others.

The Committee's land use policy proposals continue to be major Town concerns. The three school-related open space acquisitions at Hadley, Stanley and Shaw now appear to be permanent Town assets, substantially as suggested by the Committee. The balance of the Committee's land use program has been advocated by the Swampscott Growth Policy Committee and is the subject of review by the Zoning Study Committee. Hopefully, there will be continuing progress in the effort to preserve what remains of the Town's character and quality and to control costs and taxes by limiting growth.

It is recommended that the Committee review the enrollment - school facilities situation on completion of its recommended conversion of Shaw Junior High to High school use and file its final report in 1978.

The most important event of the year took place when the U.S. Department of the Interior designated the former Elihu Thomson residence a national historic landmark.

This designation automatically enrolls the property on the national register of Historic places and extends to it the safeguards of The National Preservation Act of 1966.

Your Chairman and this Committee have been working since 1963 to obtain greater recognition for our most noted citizen and this designation is the culmination of our efforts.

In connection with this, the Committee voted to publish a booklet on the Elihu Thomson home together with descriptive photos of the interior and exterior and including appropriate explanatory text.

Observance of Veterans Day was held on November 11th at the American Legion flagpole. The Rev. Edmond Derosier of St. John the Evangelist Church offered prayers and benediction. Robert E. Donelan, Chairman, spoke for the Board of Selectmen and the Town. Delegations from the American Legion Post 57, World War I Barracks, and Veterans of Foreign Wars, Post 1240 participated in the rituals honoring deceased comrades.

Flags and wreaths were placed about town. Open House followed at the new V.F.W. quarters on Pine Street.

# FOREST WARDEN

WILLIAM R. HYDE

The following is the report of the Forest Warden for the year 1976.

During the year 1976, thirty-two (32) burning permits were issued to the residents of Swampscott. This was done in accordance with the law which allows burning during the period March 15, through April 15, 1976. This burning to consist of the open burning of products of open space land husbandry and management, including materials commonly referred to as brush, including vegetation such as tree branches, brush, cane, driftwood and other forestry debris, but excluding grass, hay or leaves. The permit for such burning is to be obtained from the fire department.

Such open burning shall be performed in accordance with the following requirements:

a) without causing a nuisance, b) with smoke minimizing starters if fire starters are necessary, c) between ten o'clock ante meridian, and four o'clock post meridian, d) on land proximate to the place of generation of such products, or at such other place as may be designated in the permit.

Violations shall be punishable by a fine of not more than fifty dollars per day, and each day's violation shall constitute a separate offense.

This statute will be enforced by this department anytime it is encountered.

This law was extended through the year 1976 and it is my hope it will be extended throughout the years to come to enable the residents to clear their property. Notification in the local papers as to whether the law has been extended will be made as soon as the Fire Department receives such information.

I wish to thank the citizens of Swampscott for their past cooperation in this matter.

# POLICE DEPARTMENT

WILLIAM J. CARLIN, CHIEF

## PERSONNEL

Reserve Officers David P. Matherson, Eugene F. Ruscitti and Francis J. Corcoran were appointed regular patrolmen to fill vacancies created by the retirement of Officers John R. Daley, Arthur N. Sellers and William E. Blake for service connected disabilities. The department at the present time is up to authorized strength.

## TRAINING AND EDUCATION

Officers Brian T. Chadwell, George M. Gately and Donald E. Connor attended and graduated from the State Police Training Academy.

Lieutenant Paul A. Sherry attended a Uniform Crime Reporting Training Seminar conducted by the State Department of Public Safety at Danvers.

Lieutenants John F. Casey and Peter J. Cassidy attended a Special Training Seminar on Search and Seizure sponsored by the Massachusetts Criminal Justice Training Council held at the M.D.C. Training Academy at Medford.

Lieutenants James E. Hanley and Paul A. Sherry attended a Special Training Course on Bombing Incidents at Boston sponsored by the Massachusetts Criminal Justice Training Council and the U. S. Treasury Department. Lieutenants Hanley and Sherry also attended a Special Seminar on the preparation of Search Warrants and Affidavits sponsored by the Massachusetts Criminal Justice Training Council at Boston.

Officers Charles H. Bickford, Robert R. Berry, Lawrence A. Mangini and William J. Ray completed the Emergency Medical Technicians Course.

Fourteen Patrolmen have been trained in the use of Radar.

Eighteen members of the department are presently attending College on a part time basis, many have already attained degree status.

## EQUIPMENT

As a result of Federal Grant applications being accepted, the Town has acquired a new fully equipped police cruiser and new Radar from the Governors Highway Safety Bureau at no cost to the town. The acquisition of this equipment will enable us to move efficiently to enforce the motor vehicle laws, and will not require additional manpower as it will be used only two or three days a week when regularly assigned manpower is available.

## AUXILIARY POLICE

The Auxiliary Police under the direction of Auxiliary Chief Harold J. Keating has been active during the year in assisting the regular department. This force is ready for immediate service in any emergency.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the members of the Swampscott School Committee and the citizens of Swampscott:

I am pleased to submit my annual report as Superintendent of the Swampscott Public Schools.

The year 1976 brought many changes and events. As space does not permit to enumerate them all here, we share with you the most important ones.

## PERSONNEL

All of us were saddened this year by the loss of two people who served our school children for many years: Mrs. Virginia Hocknell, teacher in the intermediate grades at the Hadley School, and Mario Travascio, Head Custodian at the high school. Over the years each, in their own capacity, contributed much to the growth and development of the children of Swampscott. They will be sorely missed by members of the School Department and the community.

Over the last year several retirements took place: Stanley Bondevitch, Athletic Director and Head Football Coach; Mrs. Amy Burk, School Nurse; Harry Boudakian, Driver Education Teacher at the high school; Miss Catherine Garrity, a teacher at the Clarke School; Michael Pagnotta, Senior Custodian at the Machon School; and Mrs. Doris Coletti, Janitress at the Hadley School. We express to them our appreciation for their years of fine service and their dedication to the interests of the children of Swampscott.

Our best wishes are also extended to Dr. Peter Capernaros who resigned his position as Administrative Assistant to the Superintendent and Mr. Charles Kimball who resigned as the Assistant Principal at the Shaw Junior High School. Dr. Capernaros has assumed the position of Assistant Superintendent of Schools in Canton, Massachusetts, and Mr. Kimball is now the Principal of the high school in South Hadley, Massachusetts. The outstanding professional and personal qualities of these men served a vital role in developing the positive relationships each had established with both staff and students alike. We extend to them our appreciation for their exceptional contribution to the community and our best wishes for a rewarding experience in their new positions.

Dr. Capernaros has been succeeded by Mr. Warren Hopkins of Swampscott and Mr. Kimball by Mr. Bernard Tuttle, Jr., formerly a teacher in the Mathematics Department at the Shaw Junior High. Both of these men bring with them many years of experience and education, both in teaching and administration. We wish them the best of luck and express our hope for successful careers as administrators with the Swampscott Public Schools.

A list of staff changes which took place during the past year is as follows:

**CURRICULUM AND PROGRAMS**

Despite the fact that we are beginning an era of decreasing enrollment, 1976 proved to be a year of continued progress. This was primarily the result of the efforts of a professionally dedicated staff of administrators and teachers who strove to remain constantly aware of the problems and needs of our schools. It was through

the dynamics of their ideas and thoughts that our children were assured of the highest quality of education that we could provide.

Some of the more significant changes and developments are listed as follows:

1. The "back to basics" concept characterized much of what took place this past year with respect to curriculum and programs. This was especially true at the secondary level where the philosophy of open electives has come under close scrutiny. An example of this was the elimination of semester electives in English and Math during the junior and senior years at the high school in favor of a return to full-year traditional courses. This decision was aimed at restoring a higher standard of achievement for all students by requiring them to take courses at their own level of ability.
2. At the elementary level changes and developments continue in the area of programs designed for individuals with special needs and interests. Teachers have taken advantage of reading check lists that were completed in the Summer Workshop. These have proven to be a great help in planning for individual differences and should provide for an easier transition from grade to grade.

In Mathematics, we have finished supplying all pupils from grades K-6 with the new Houghton-Mifflin materials. These are supplemented with learning devices in the classrooms as well as remedial programs available through the resource center. In Science, our SCIS kits are now used throughout grades K-6 providing a realistic learn-by-doing approach.

3. The Interim Vocational Program at the North Shore Regional Vocational School is in its last year of operation for Swampscott students. Beginning in September, 1977, all of our students who choose vocational training at the end of grade nine must be full-time students at the Regional Vocational School. The high school will have no further responsibility for the academic training of vocational school students. This change will have an effect on our Alternative Education Program in grades 11 and 12, because it served mainly vocational students. The Alternative Education Program must be redesigned to serve a different clientele, because our evaluation of this Program indicates a definite need to serve a wider range of students.
4. This year marked a period of stabilization, greater acceptance, and a branching out into new directions for the Open Campus Program. In addition to the continuous presentation of in-school and off-campus programs which have always been a part of Open Campus, 1976 saw an increase in the number of senior programs and a closer tie-in between open campus and the curriculum. Special features appeared such as a party for mentally retarded children, participation in a telethon for Cerebral Palsy, and a special election '76 series.
5. A complete revision of curriculum in all academic areas is nearing completion. It is hoped that an all-inclusive document will be available by Spring, 1977.
6. An intensive program of instruction in reading and writing began in grades 9 and 10. Concentration is in the areas of literature for pleasure and understanding, development of critical and interpretive reading skills, comprehensive composition and rhetoric, and a close study of the English language.
7. A major change in the Science curriculum completed for 1977-78 is the offering of Earth Science in grade 8 and Physical Science in grade 9. Presently

they are offered in the opposite sequence. To accommodate the change, Earth Science is being offered in both grades 8 and 9 this year.

8. A workshop for elementary teachers was offered to familiarize them with the Metric System. The program was sponsored by the Metric System Committee and presented by Mr. Charles Gerry.
9. A course of study for remedial mathematics courses in grades 10 and 11 has been planned for 1977-78, to follow a similar course in grade 9. Expansion of the current Consumer Mathematics course is also scheduled.
10. In the areas of Mathematics and Science, certain Swampscott High School students earned recognition this year for both individual and team accomplishments. Two of the more notable were:
  - (a) Brian McDevitt who was honored by the Science Department with a reception at the Peabody Museum for his film of a tornado over a lake in front of his family's summer camp in Maine. Brian's article pertaining to this event was published in the Bulletin of the American Meteorological Society. Requests for copies of his film have come from all over the United States and some from South America as well.
  - (b) The Mathematics Team who finished second in the state tournament and placed first in New England in a competition with all schools of enrollment of 1,000 or under.

Our congratulations are offered to all of these students for their fine efforts.

11. The study of Hebrew and Italian was implemented at the junior high level with Italian also being offered in grade 10. This addition places the Swampscott Public Schools in the unique position of offering students the opportunity to choose among five foreign languages.
12. The Business Department has progressed with plans to adapt its program to the new four-year school at the Shaw next year. They include:
  - (a) Equipping one business classroom with electric typewriters and a transcribing unit, which will enable students to transcribe at individual rates.
  - (b) Introduction of the Metric System into the Business Math II course.
  - (c) The opportunity for Business students to enroll in a computer course geared for business applications.
  - (d) Institution of a Personal Typing course at the ninth grade level for non-business students.
13. The Industrial Arts curriculum now includes one drawing class that has converted to working with the Metric System, as well as adding a Technical Math course to its program.
14. Progress is being made in planning a more integrated Art program at the elementary level. This direction will make the impact of the visual arts felt by all our young people and will serve to unify several or all academic disciplines.
15. The Music Department has continued to show growth both in quality and quantity. Unlike school populations, the department has gained in numbers for the past five years. Next year the high school and junior high school bands will number 80 and 65 students respectively. The retention of the instrumental students in the elementary program has also been high. In

addition, there was an increase in the number of beginning students at the fourth grade level of this program. Further expansion of both the instrumental and vocal programs is anticipated at the secondary level with the availability of more adequate rehearsal facilities at the new four-year high school.

16. Strong efforts have been made at the Shaw Junior High in the area of teacher, student, and community involvement with the school as a whole. Some of these include:
  - (a) A student government organization formed by the students which meets once a week.
  - (b) A Faculty Forum which was instituted to provide a communication link between administration and faculty.
  - (c) The institution of open-meetings between groups of parents and the principal. These parent groups were invited to discuss areas of concern among themselves and with members of the professional staff in order to open channels between the school and community and to determine the role parents play in school life.
17. The Physical Education program has completed its curriculum revisions for 1977-78 which will offer a newer and wider range of Physical Education electives for students at the new high school. It should also be noted that the fall interscholastic athletic programs involved a total of 42% of all high school students. This is an improvement over the total student participation in these activities in recent years.
18. In the area of Pupil Personnel, a survey was conducted which indicated that the majority of high school students continue to make effective use of all three guidance counselors. Swampscott continues to send the highest percentage of students in the North Shore Area on to college and an increasingly large number of students are now attending the North Shore Regional Vocational Technical School. In a five-year follow-up study prepared by Mr. John McDevitt of the high school Guidance Department, it was shown that 73.13% of the class of 1970 who planned to attend a two, three, or four year school or college were accepted and have completed their programs.

Additional programs were made available to Swampscott special needs students under Chapter 766. A total of 30 classes now exist in the ten collaborative communities for students with severe developmental or behavioral disorders. Itinerant services are also available from occupational therapists, physical therapists, and teachers of the blind and deaf. Swampscott itself has developed resource rooms in each school staffed by at least one specialist and a special needs aide.

## **SHAW CONVERSION**

Work on the addition at Shaw Junior High School is proceeding on schedule. After a year it is quite obvious to a passerby traveling Forest Avenue that our new four year high school is rapidly taking shape.

Bricks and glass have been made into a pleasing architectural form resulting in what constitutes a very large addition to the older junior high structure. Within this addition is the media center, general and specialized classrooms, and the choral and band rooms. The addition will also contain the automotive, metal, wood, and elec-

tronic shops for the expanded Industrial Arts program. Gym facilities will be doubled by the addition of the new wing adjoining the old gym.

Great strides have been made toward our goal of completion by September, 1977, and we feel confident that the 9th through 12th grades will be housed here at that time.

## **REDISTRICTING**

Due to declining enrollments the School Committee directed me to develop a plan for the redistricting of students in the elementary schools. In December, I submitted a report to the School Committee that included the following recommendations:

1. At some time during the 1977-78 school year the Hadley Primary (St. John's) should be phased out and pupils returned to the Hadley School proper.
2. Drop one-half day kindergarten session at the Clarke and Hadley Schools. Drop one first grade class at the Clarke School and encourage six or more first grade students from that school to transfer to the Machon School. These changes would result in the elimination of two teaching positions.
3. All sixth grade classes remain in their own elementary schools. This would call for the return of the Clarke district sixth grade classes which are now housed at the Hadley to return to the Clarke School in 1977-78 as soon as they can be accommodated.
4. Use the old high school on Greenwood Avenue during 1977-78 to house grades 7 and 8, relocated from the Shaw Junior High School.
5. Relocate the central offices of the school system to the old high school and restore space vacated by this move to classrooms at the Hadley School. This move if not feasible for 1977-78 could be undertaken in the following year.

The School Committee will be considering these proposals sometime early in the current year.

## **CONCLUSION**

If I may reiterate one of my past statements that the purpose of education can best be expressed through our philosophy of education, "to guide and assist the student in his development to the extent of his capabilities as an individual and as a member of our democratic society." Our democratic way of life depends upon the way our young citizens are educated. The problems and needs of society are becoming more complex and therefore the education of our youth becomes more complex. Schools are a product of our society and therefore reflect the desires of this society. It is with this thought in mind that we should strive to do better the worthwhile things we have been doing as we plan to meet the future.

I wish to commend and to thank the School Committee for their support in making quality education available to all students. Their concern and dedication, as well as their experience and knowledge of the community, eventually lead to wiser decisions, which is always an inspiration to me.

I also wish to take this opportunity to thank the staff, parents, students, and other citizens for their fine cooperation during the year and the many people

assisting me in this report, including my administrative assistant, principals, and clerical staff.

We are constantly searching for ways of improving the educational environment of our children through every available means at our disposal, and we would be most happy to accept your suggestions in helping us reach our goals.

Respectfully submitted,

CHRIS G. PATRINOS, Ed.D.  
Superintendent of Schools

# GREATER LYNN COMMUNITY SERVICE CENTER

## ADVISORY BOARD (WELFARE)

JOHN F. O'HARE, Advisory Board Designee

As the Swampscott Representative (Unpaid Position) to the Greater Lynn Community Service Center, i.e., The Welfare Office in Lynn at 1 Washington Square (The old Oxford Club), I attended five meetings during the year 1976.

Since the State takeover of welfare payments and the creation of the Advisory Boards throughout the State, fifty-five meetings have been held in Lynn.

This year's speakers were as follows:

Stephen Kane, Assistant Commissioner for Assistance Payments, who discussed past, present, and future concerns regarding Assistance Payments systems,

Mary McCall, Assistant Director for Assistance Payments, GLCSC, who presented local issues relative to Assistance Payments and the activities conducted by her staff,

Gary Moore, Sue Drake and Alida Joyce who made presentations to the Board which covered all the social services provided by the State Department of Public Welfare and in particular the Greater Lynn Office,

Also, Mrs. Susan Berkman of the Commonwealth of Massachusetts, Department of Public Welfare, and Helen Lipson of the League of Women Voters, who visited with the Advisory Board Members and discussed State issues.

In spite of the Nature of this Board—strictly advisory in nature, I have continued to personally assist and advise town residents as to procedure and assistance in welfare matters.

Mr. Thomas Spirito, Director GLCSC, has to be commended for his continuing concern and cooperation for welfare recipients and he himself has been extremely helpful to me when needed.

Income from Marine Policy on equipment stolen in December, 1975 was \$1,023.37. The equipment will be replaced adequately with this insurance income.

May I take this opportunity to thank the following offices and personnel at Town Hall: The Selectmen's Clerk, Accountant, and Treasurer.

I again remind residents to be mindful of short weight, improper pricing, and other violations and to feel free to contact me regarding them.

# AMBULANCE NEEDS STUDY COMMITTEE

DR. RALPH L. EPSTEIN, Chairman

DR. ROBERT H. BESSOM

JAMES FENELON

CHIEF WILLIAM J. CARLIN

MICHAEL DePAOLO

CHIEF WILLIAM R. HYDE

ROWE AUSTIN

WILLIAM WOLLERSCHIED

CARL REARDON

ROGER EATON

The Swampscott Ambulance Needs Committee, appointed by the Board of Selectmen, was formed to investigate the needs of the town in relation to providing ambulance service for its residents.

Committee members played an active and supportive role in obtaining a replacement ambulance, one which conforms to the new state regulations. We have met many times in our quest to develop a system of fees for ambulance usage as mandated by Town Meeting members in 1975.

The plan to institute a system of fees has all but fallen flat on its face, however, because insurance carriers have refused to accept direct billing from the town. We had originally suggested that the insurance companies and not the residents themselves receive a bill for ambulance services.

To help offset the cost of the town's ambulance program: the vehicle, its regular maintenance, training of ambulance personnel in the EMT-A program, retraining for those who have already gone through the first phase of the program, first responder training for all other emergency personnel, etc., committee members are in agreement that some source of revenue should be developed.

At a meeting on January 26, 1977, it was voted that the following recommendation be made to the Board of Selectmen:

That the selectmen approve and accept a question for the April 25, 1977 town ballot to read as follows:

"Shall the town charge a fee for ambulance service and institute a system of billing for each ambulance run to be sent by the Police Department and collected at Town Hall? The fee for such service is to be set by the Board of Selectmen."

Committee members are deeply concerned about the costs for ambulance service in Swampscott. The tremendous tax burden is made heavier each year by rules and regulations adopted at the State House in Boston over which we have no control.

To help offset the costs of our ambulance service, committee members agreed that a system of fees for service would be appropriate.

Since most residents are covered by some form of health care insurance, it would be expected that, if the question is approved at the polls on election day, the resident who is conveyed by ambulance would pay the town's bill and then submit that bill to their insurance company for appropriate reimbursement.

Committee members felt the question should be placed before the entire town electorate due to the importance of the question.

If residents vote against the fee proposal, the entire cost of the ambulance program will continue to be borne by the property tax levy.

# DEPARTMENT OF CIVIL DEFENSE

FORREST E. MASON, JR., Director

As in the past years, the Swampscott Civil Defense Organization continues training the Auxiliary Police, Fire, Rescue and Communications Departments. The sole purpose of these Training Programs is to be able to assist our regular departments in times of emergency, either natural or national.

I have strongly implied in the past, the importance of home protection. Our Civil Defense Program strongly urges you to follow these four basic suggestions:

1. Have at least one member of the family take a Red Cross Family First Aid Course.
2. Have at least two weeks supply of canned goods and juices stored in case of emergency, for each member of your household.
3. Have a "planned action" with your family so even the youngest member knows where to go and what to do in case of natural disaster.
4. Make sure a portable radio and flashlights are in good working order.

Again, may I state that all members of Swampscott Civil Defense are Volunteers and deserve the highest praise for devoting their time to keep our emergency equipment in A-1 condition.

I am most grateful to the Board of Selectmen, our Fire and Police Chiefs, and to our Public Works Director. Without their help, we would not have a good Swampscott Civil Defense.

## WORKMEN'S COMPENSATION

WARREN A. JOHNSON, Agent

During this calendar year, thirty-six (36) claims were received for workmen's compensation benefits. Of these, twelve (12) were entitled to weekly salary benefits. Thirty-three (33) were filed from the fire and police departments for medical payments.

At this time, it appears to be a reasonable projection that we will remain within budget for fiscal 1977. However, medical payments for police and fire claims will exceed estimates, necessitating a transfer of funds from the Chapter 152 account. The numbers of claims for this year remained relatively consistent with that of last year's report.

Under the law of the Commonwealth of Massachusetts, the town provides workmen's compensation benefits (Chapter 152) for all employees except policemen and firemen. These include medical payments and weekly salary benefits where applicable, for work-related injuries and/or illnesses. This department only administers medical payments for policemen, and firemen.

The cooperation from all employees and the administration of the town departments has been great. I thank you very much.

# COUNCIL ON AGING

SHERRY CHAMBERLIN, Chairman

LOUISE MARGOLIS, Secretary

RITA GILLETTE, Treasurer

JOHN NOLAN

RAY E. BEAN

WOODBURY RODRICK

HARROLD GOLDBERG

The Swampscott Council on Aging was established at the Annual Town Meeting held in May, 1976. Its main purpose is to identify the total needs of the community's elderly population, 60 years and over, and to promote services to fill these needs. There are over 2,300 elderly in the community.

On July 8, 1976, the Board of Selectmen appointed seven members to the Council, all to serve on an unpaid basis.

Several important events took place the first few months the Council was in existence.

1. A hot lunch test program for July and August, Monday through Friday, was successfully completed. Until then, hot lunches had been prepared at the High School and served only three days per week at the First Church, Congregational. Lunches were not provided on school holidays or vacations.
2. The St. John's School building was obtained as the lunch site—for both cooking and serving the hot meals on a daily basis—for five days a week.
3. The Meals-on-Wheels program was transferred and accepted from the Board of Health. This program serves lunches to shut-ins in their home.
4. A network of advisory boards was created and staffed with concerned community individuals. Members of the Council serve as chairmen for Housing, Health, Education, Recreation, Finance and Budget, and Policy and Donations. Because the Transportation Board has a vast, on-going function, it is chaired by someone not a Council member. These boards meet regularly, study, and recommend actions to the Council on Aging.
5. There is presently a volunteer task force of about 150 persons.
6. Meetings were held with invited key personnel from the Department of Elder Affairs.

In addition to the above, the Council on Aging coordinates with (a) The Swampscott Housing Authority; (b) The Continuing Education Program Director; (c) The Swampscott Public Library; (d) The Swampscott High School Staff; (e) Town Hall agencies; and (f) Organizations with similar concerns.

Also, the Council has been instrumental in the following:

1. Reinstating the weekly free bus service to a local supermarket;
2. Reducing local taxi fares to special areas;
3. Correlating a survey for transportation services;
4. Participating in local seminars and workshops;
5. Cooperating with local health officials on clinics and services.

Most important, the Council on Aging serves as a referral agency—accomplishing its assignment through telephone and personal contacts, correspondence and newsletters, and the news media.

Currently, the Council is working to (a) implement a mini-bus service to transport the senior citizens to the hot lunch site; (b) initiate a Dial-a-Ride System with a lift vehicle for clinic and doctor's visits; and (c) proceed with scholarship fund plans for high school seniors.

With the continued help and support of its citizenry, the Swampscott Council on Aging will go on working to provide services to the community's elders.

## TRUSTEES OF WORLD WAR II MEMORIAL FUND

ERNEST MANCHIN, Chairman

JOHN R. COOPER

PHILIP E. KILGORE

CLEMENT KENNEDY

JOHN M. LILLY

BENJAMIN GOLDBERG

PATSY LOSANO

The Trustees submit their 26th Annual Report.

Eight scholarships totalling \$1,500, were awarded this year to the following:

- \$500—Kathleen McManus, Bentley College
- 300—Laura Sill, North Adams State College
- 200—John Thibodeau, University of Massachusetts
- 100—Clare Murnane, Northeastern University
- 100—Richard Langford, Cape Cod Community College
- 100—Bruce Rubin, University of Massachusetts
- 100—John White, Holy Cross College
- 100—Thomas J. Vatcher, Westfield State College

To date 61 Swampscott Students have been awarded scholarships with a grand total of \$18,400.

The Trustees held a meeting at the American Legion Building to review and act on the many applications which included one application from a Swampscott student from an out of town high school.

Checks were sent to colleges and universities for all recipients except: Kathleen McManus, Laura Sill, John Thibodeau, Bruce Rubin, whose awards would be paid for at later dates.

During the year the Board of Selectmen appointed Dr. Philip E. Kilgore as a Trustee to fill the vacancy created by the resignation of Harry Davis, who moved out of state.

This is a perpetual memorial which was approved by the Town Meeting of 1950, under the provisions of Chapter 119, of the Acts of 1949. Contributions to the Fund are welcomed and are deductible by donors in computing their taxable net income.

Two contributions were received during the year in memory of: Mr. Joseph Faella and Mrs. Mildred Manchin Faella.

The Fund was established through the efforts of Swampscott Veterans of World War II who wanted a practical type of Memorial.

The balance in the Fund as of December 31, 1976 follows:

Charlestown Savings Bank .....	\$ 2,405.88

## REGIONAL REFUSE DISPOSAL COMMITTEE

MELVIN J. WEINER, Chairman  
KENT F. MURPHY, Secretary

The Committee was authorized by Chapter 40 of the General Laws, Section 44A and was created by Article 43 of the 1971 Town Meeting.

Your Committee has met with the South Essex Solid Waste Council as a member (non-binding).

The SESWC Plan is progressing rather slowly. We are negotiating with the City of Peabody for the site and with a few private companies to build and operate the Resource Center.

Your Committee is also discussing the feasibility of joining the City of Beverly on a smaller scale.

Changes in the existing legislation have been submitted to the Legislature for their approval and would be more favorable to our small town.

An article to join SESWC has been entered this Town Meeting for your approval, if SESWC is ready.

# **ZONING BY-LAW COMMITTEE**

RICHARD B. JOHNSON, Advisor

GARROLD BAKER, Chairman

ISRAEL BLOCH, Esq.

DAVID HERWITZ, Esq.

KARL V. JOHNSON

VIRGINIA JOHNSON

MINITA LEVENSON

PAUL E. LEVENSON, Esq.

TIMOTHY J. DAVERN, Esq.

HARVEY F. ROWE, JR., Esq.

The Zoning By-Law Committee was appointed by the Moderator following an affirmative vote on Article 75 at the 1976 Town Meeting calling for such a Committee "to study and recommend a revised Zoning By-Law." In addition, Articles 80 and 90 dealing with a proposed 40,000 square foot minimum lot size and cluster zoning were referred to the Committee for its study and recommendations.

The Moderator appointed Garry Baker, Israel Bloch, David Herwitz, Esquire, Karl Johnson, Minita Levenson, Paul Levenson, Esquire; and Timothy Davern, Esquire, and Harvey Rowe, Jr., Esquire, Ex-officio. Mr. Johnson was succeeded by Jack Willis on January 31, 1977.

The Committee first met on June 29, 1976 and elected Mr. Baker and Mr. Levenson as temporary Chairman and Clerk, respectively. Thereafter, the Committee met regularly in a section-by-section review of the Town's Zoning By-Law for the purpose of (1) determining what changes are required by Chapter 808 of the Acts of 1976, the new Massachusetts Zoning Law; (2) identifying new procedural and substantive Zoning alternatives presented by Chapter 808; (3) noting any existing ambiguities or inconsistencies in the current text; and (4) outlining recommendations for changes to be placed before the Town for action.

The Committee has from time to time invited existing Town agencies and citizens' groups to attend one or more of its sessions for the purpose of sharing their practical experience or particular knowledge with the Committee. Prior to its final report, the Committee will hold additional meetings for the purpose of giving any Swampscott resident an opportunity to be heard.

It is anticipated at the moment that the Committee will seek a Special Town Meeting for consideration of its final report.

## **MUNICIPAL ELECTRIC PLANT STUDY COMMITTEE**

JANE A. LYNESS

RALPH DUNN

JAMES DILLON

LOUIS RUDOLPH

The Swampscott Municipal Plant Study Committee recessed on December 1, 1972.

However, each year this committee has filed a bill with the Massachusetts Legislature to change or clarify the intent of Chapter 164, Section 43, of the General Laws of the Commonwealth of Massachusetts. When this bill becomes law, the Committee will be reactivated.

# COMMISSIONERS OF TRUST FUNDS

ROBERT V. GRIMES, Chairman  
HAROLD R. AUSTIN FLOYD W. WEBSTER

The Commissioners of Trust Funds are responsible for managing any assets given over to the custody of the Town of Swampscott which intended to be for the benefit of all the inhabitants of the town.

The Commissioners were active during the year in the supervision of the funds, all of which are kept in custody by the Treasurer of the town. In addition, the Commissioners reviewed the disposition of such funds.

The Commissioners request that it be brought to their attention whenever funds are bequeathed or otherwise given to the town by anyone having knowledge of such funds.

The Commissioners extend their sincere appreciation to the various boards and officials of the town for their helpful cooperation during the year.

## AD HOC SEWAGE TREATMENT AND DISPOSAL FACILITIES BUILDING COMMITTEE

ROBERT W. SNOW, Chairman  
VEEDER C. NELLIS, Secretary  
PHILIP A. BRINE, JR. JOHN P. THOMPSON  
MARVIN J. BAKER

The Ad Hoc Sewage Treatment and Disposal Facilities Building Committee, on January 21, 1977, submitted to the Massachusetts Division of Water Pollution Control, Water Resources Commission, all papers finalizing the construction of the Water Pollution Control Facility.

Having met all obligations required by the Water Resources Commission and the Environmental Protection Agency, the Town is now awaiting final payment from these two agencies in their participation in the construction of the facility.

The facility is now under the full responsibility of the Board of Public Works.

## BY-LAW COMPILATION COMMITTEE

TIMOTHY J. DAVERN, Chairman  
LT. JAMES E. HANLEY JOHN F. BURKE  
THOMAS F. ROGERS, ESQ. ANTHONY CORSO

The By-Law Compilation Committee, at the Chairman's suggestion, took a sabbatical year in anticipation of the recommendations to be forthcoming from the Zoning By-Law Committee.

# COLLECTIVE BARGAINING AGENT

THOMAS H. DRISCOLL

During 1976 all Town employees represented by unions were working under collective bargaining agreements. Public Works, Town Hall, and Library employees were working under a two year 8% per year arrangement, covering the period from July 1, 1975 to June 30, 1977. Town Hall employees were working under an 8% agreement that will expire June 30, 1977. The Town Hall employees, with a new union, were working under their first collective bargaining agreement.

The Police and Fire Fighters worked under a one year agreement with a 6% increase while proceeding with their statutory fact finding and binding arbitration rights. The Police and Fire Fighters received a final and binding arbitration award encompassing a 10% increase in September, 1976. The 10% increase was retroactive and covered the period from July 1, 1975 to June 30, 1976.

Negotiations are under way with all unions representing town employees for new contracts to take effect July 1, 1977.

The final and binding arbitration provisions of Chapter 150E of the Massachusetts General Laws, which set up special arbitration measures for Police and Fire Fighters, expire June 30, 1977, unless they are extended by the legislature and the Governor.

There are other provisions for arbitration for public employees in Chapter 150E under certain circumstances, but not as far reaching as the procedure for Police and Fire Fighters.

The collective bargaining process with public employees has become more involved and sophisticated in recent years. All full-time town employees, with the exception of department heads and elected officials, are now represented by unions in Swampscott.

The collective bargaining law for public employees, Chapter 150E of the Massachusetts General Laws, has had far reaching influence on public employment and public management.

The existing law not only requires collective bargaining for wages, but also for most working conditions. The collective bargaining process has, for all practical purposes, superseded civil service personnel by-laws.

Employee grievance procedures, job posting for vacancies and promotions, reduction in force, dismissals, and suspensions, are now subjects of collective bargaining agreements.

Chapter 150E designates the Mayors in cities and the Selectmen in towns as the bargaining authority in negotiations with public employee unions. Selectmen and Mayors may retain collective bargaining agents and other management assistance, but they are responsible, under the law, for the bargaining.

I would like to compliment the Board of Selectmen, Town Counsel, Police Chief, Fire Chief, and Superintendent of Public Works for their assistance in time, knowledge, and effort in collective bargaining.

# TOWN COUNSEL

TIMOTHY J. DAVERN

From left to right: Harvey F. Rowe, Assistant Town Counsel; Timothy J. Davern, Town Counsel

Town affairs generally become increasingly more complex and complicated with the passage of each year. The normal involvement of your Town Counsel in the regular anticipated functions of Town Government require an expenditure of time which is fully recognized only by your elected and appointed town officials. The sophistication of the world in which we reside is reflected in the workings of your local government. The time and effort required just to sustain the vitality of our community increases at an alarming rate.

The Town Counsel is called upon to render opinions on almost a daily basis. Sometimes the opinion rendered is not popular but usually it is adhered to. All of your Town Counsel's opinions are based on his understanding of the law involved after considerable research and, frequently, after lengthy consultation with either other Town Counsels and/ or City Solicitors and, occasionally, someone from the Attorney General's Office. At times, I am consciously and acutely aware that the opinion I render will be contrary to that which the Board of Selectmen would desire. However, that Board has never asked for my opinion without subsequently being guided by it.

Infallibility is not required as a part of the job classification for Town Counsel. Nevertheless, it is difficult, at times, not to respond to well publicized, but clearly fallacious arguments, concerning the opinions so rendered.

My assistant, Harvey F. Rowe, has been of immeasurable help. He handles substantially all the litigation in which the Town is a party, and, in addition, works closely with a number of appointed and elected town committees as well as devoting a significant amount of time to the myriad problems relating to the Board of Appeals.

It would be impossible to perform the task of Town Counsel without the enthusiastic support and cooperation of all the town officials and boards. I hesitate, therefore, to single out any one person who has given me extraordinary aid, but if you should go by the Town Hall late at night or on a Saturday morning or Sunday afternoon and see my car in the parking lot, the one beside it belongs to Miss Kay Donlon.

A relatively obscure Greek Philosopher propounded the theory that "nothing is permanent except change". Those of you with acute memories must by now have experienced an uneasy sensation that all the previous paragraphs have a somewhat familiar appearance. And so they should, having been lifted verbatim from my previous Town Reports commencing in 1970. Contrary to our philosopher friend, however, I truly believe that the observations, comments, and views, are as valid, subsisting, and germane today as when initially made.

## **CONTRIBUTORY RETIREMENT BOARD**

GERARD CARON Chairman, Appointed Member  
CHARLES DWYER, Elected Member  
KEITH A. CALLAHAN Secretary, Ex Officio Member

The board is pleased to report on the highlights of its activities for 1976.

One hundred fifteen Former Employees received \$571,767.79 in retirement allowances from the Contributory Retirement System.

Thirty-seven Former Employees received \$216,715.82 of Non Contributory Allowances.

The Book Value of invested funds as of December 31, 1976 was \$1,625,427.16.

The source of all invested funds were employee contributions.

There were 11 applications for Retirement processed and granted during 1976.

The following retired:

- Daniel Pierro, P.W.
- Amy Burk, School Nurse
- Malcomb MacLean, Clerk/Collector
- Arthur Sellers, Police
- William Blake, Police
- Margaret Cameron, Treasurer's Office
- John Daley, Police
- Theresa Kenneally, Library
- Michael Pagnotta, School Custodian
- Anthony Pierre, Assessor
- Ivar Gustavsen, P.W.

A pension was granted to the widow of Kenneth Peterson, deceased P.W. employee.

A complete list of the General Ledger balances as of June 30, 1976 is included in the Town Accountant's Report.

Greater detail is available in the Annual Report submitted to the State, a copy of which may be examined at the Town Accounting Office.

# PHILLIPS BEACH FIRE STATION COMMITTEE

EDWIN FOYE, Chairman

ROBERT BAKER

CHIEF WILLIAM R. HYDE

LOUIS FRISCH

ALBERT T. LITLE

Pursuant to the provision of Article 33 of the 1976 Annual Town Meeting, the above committee was appointed by the Moderator, Mr. Douglas Allen, June 3, 1976.

The assignment was to study the advisability of making alterations, repairs, and structural changes to the Phillips Beach Fire Station and to report the recommendations of the committee to the 1977 Annual Town Meeting.

At the first organizational meeting, Mr. Foye was elected chairman and the next six meetings were devoted to a review of the heating, structural, space and plumbing problems as they exist in this converted coach house which has been used by the Town Fire Department for many years.

The committee was impressed with the orderly manner in which the building and grounds have been maintained by the Fire Department with assistance as needed by outside contractors, The Board of Public Works, The Town Inspector of Wires, The Plumbing Inspector and undoubtedly many others over the years.

The committee reviewed the necessity of the facility and agreed that there is a need for the Phillips Beach Fire House. The congested traffic on Humphrey Street and Paradise Road, the main roads to the Central Fire Station from Precincts five and six emphasize the need.

At subsequent meetings the committee met with contractors, plumbers, and the Inspector of Wires to determine the scope of the work required to correct obvious inefficiencies. The main objectives were as follows:

- Combine the kitchen and drill room
- Control the heat loss from the building
- Update the electric wiring
- Update the plumbing
- Control operating and maintenance costs
- Update various appliances

The committee recommends that the present steam boiler be converted to a forced hot water system that will provide a separate zone of heating for the garage, the living areas and the sleeping area. The garage to be heated with two unit heaters with thermostats. To effectively control energy costs the upper floor should be modernized with hung ceilings with insulation above the new ceilings.

The committee recommends that the electric wiring be renewed as required and that the surplus wiring be traced down and removed. A new 200 amp panel and service should be installed to update the lighting with twenty-four new lighting fixtures and approximately thirty-five additional electrical outlets to power appliances and tools requiring larger amperage than is presently available in the building.

Several of the very old plumbing units should be replaced and the drain pipes for these units replaced. Plumbing code changes will require some minor update of present shower.

The sleeping and living area should be panelled and the floor covered with a commercial carpeting. The kitchen area requires a new subfloor with vinyl tile surface.

Other items to complete the renovation of this Town Building includes painting and renewal of ceiling tiles in the garage as needed, replace drain tiles as needed, and pointing of the stone on the exterior walls where required.

It is the recommendation of the committee that any outside changes to the building be held to a minimum and not to enlarge the building in any way.

Mrs. Patricia Davern	Richard H. Olson	Arthur H. McGovern, Jr.
Francis N. Lang	Peter Hill	Daniel P. Cobbett
Dr. Howard E. Rotner	Charles R. McClung	

The Swampscott Sailing program for 1976 had 150 children taking part. The program ran from July 4 to the end of August, five days a week.

There were 3 classes held each day of two hours duration.

Races were scheduled every other day for the advanced classes.

There were four widgeons and six optimist sailing prams involved in the program.

The staff consisted of one director and three instructors.

There was a registration fee charged for the participants as follows:

One child in family, \$10.00

Two children in family, \$8.00 each

Three children in family, \$5.00 each

Proposals for 1977 are to acquire two more widgeons, for a total of six, run the daily program longer, possibly four classes a day instead of three, plan more racing, possibly two or three more times a week, and plan to take the widgeons to Marblehead for competitive racing, have a staff of one director and two instructors, to constantly promote safety, and proper boat handling as has been done in the past.
